

KX-TS550W

**Integrated Telephone System
with 2 One-Touch Dialer Stations,
and Hearing Aid Compatibility,
and Emergency Button, White**

Quickly Dial Frequently Called Phone Numbers

Do you make frequent calls to the same numbers? If so, this phone will make life easier for you. You can store and quickly dial as many as ten telephone numbers.

One button is all it takes to make a call

Make a call at the touch of a button-it's that simple. Just store the two most frequently dialed telephone numbers for one-touch dialing.

Push the Red Button for Emergencies

This phone is equipped with a bright red button for one-touch emergency dialing. In an emergency situation, there's no time to look up the number. Simply store the number, and when an emergency does happen, help is only one touch away.

Hang It on a Wall to Free Up Desk Space

This phone system can be hung on a wall to free up desk or counter space. This is especially helpful in kitchens or offices, where desk and counter space is at a premium.
