

Ice Maker Kit

IMK0023A

Description

The Frigidaire IMK0023A Ice Maker is designed for use with Frigidaire and Frigidaire Gallery series 23 cu. ft. or counter-depth refrigerators and is perfect for families who need to supplement their refrigerator's standard ice production. It produces roughly 2 pounds of radius ice every 24 hours and has the space to hold 9 pounds of ice. This is a secondary icemaker that installs easily into pre-plumbed and pre-wired refrigerators.
