

PLUM 

Elevate Your Wine Program ... One glass at a time

Plum is the world's first appliance that automatically identifies, chills, preserves and serves the perfect glass of wine on demand

TECHNOLOGY

Identify

Plum recognized every bottle and displays the label on the touchscreen utilizing advanced cloud-based software

Chill

Plum sets the perfect serving temperature for the more than 220 varietals, eliminating the guesswork while delivering a premium experience

Compact Design (17"x15"x20")

Preserve

Motorized needles automatically pierce any closure and pressurize the bottles with argon gas to protect flavor and aroma

Serve

A 7-inch touchscreen lights up as you approach and serves a glass in 10 seconds at a touch

PLUM
