THE FIRST-EVER CONVECTION MICROWAVE DRAWER™ OVEN

The SHARP® Smart Convection Microwave Drawer™ Oven (SMD2499FS) is the most eagerly anticipated kitchen innovation by Sharp. The speed of sensor microwave cooking, combined with the flexibility of convection cooking, make the SMD2499FS the must-have luxury for your modern, smart home.

The dual convection fans and dedicated heating elements in the SMD2499FS provide turntable-free baking, roasting, grilling, and air frying. Bring a meal to the table even faster with three Speed Cook modes that mix convection and microwave heating for delicious results in less time. The included dishwasher safe, porcelain cooking dish, upper, and lower racks can be used in all modes and combined for single or multi-level cooking or warming for up-to two 9"x13" baking dishes.

Use the Sharp Kitchen App to enable the smart features and keep up-to-date with recipes, ideas, and tips with live access to Sharp's Simply Better Living community. Enable voice commands with the Alexa skill and a compatible Echo device¹.

The SHARP Smart Convection Microwave Drawer™ Oven (SMD2499FS) features "Easy Wave Open" for quick, touchless opening of the drawer. The built-in airflow control allows flush-mounting while safely redirecting the ventilation away from walls or cabinets. With all of this power and flexibility, the SMD2499FS simply plugs into a standard 120V/15 amp household outlet for a fast installation. That is Simply Better Living.

Compatible with Alexa¹ and Easy Wave Open technology lends a helping hand, even if your hands are full.

Optional, 2-drawer Under-the-Counter Pedestal accessory simply slides in for installation.

Air Fry mode makes food moist on the inside and crispy golden-brown on the outside.

The included dishwasher-safe racks and cooking tray can be used in all cooking modes and arranged to fit your needs.
