

Convenience Accessories for 19" Wide Cabinets

Roller Trucks, Casters, Leg Levelers, & Mounting Rails

CT-1020-962

LL-2

Applications

Atlas Sound cabinet convenience accessories are designed to enhance the functionality of Atlas Sound racks and cabinets. Roller trucks, casters, leg levelers, and rack rails make moving and placing racks easier as well as allowing for proper installation of critical equipment.

General Description

CT1020-962 Heavy-duty, welded 16-gauge CRS roller truck provides mobility for 19" width x 18½" depth cabinets. Unit is designed for single-bay use and has one pair rigid and one pair locking 3" swivel casters. Finish is black.

FVARTK25 Heavy duty 12-gauge CRS roller truck designed for use with Atlas Sound FMA series racks. Unit includes four 4" swivel casters and recessed mounting plate that does not add unnecessary height to the rack. Finished in black powdercoat.

RCK-18 Caster kit provides mobility to 19" width x 18.5" depth 100 & 200 and 500 Series cabinets in single or multi-bay installations. Kit includes four swivel 2" diameter twin casters (two non-locking and two rigid), and two 17" L brackets with hardware.

RCK-25 Caster kit provides for caster installation onto 19" width x 25½" depth cabinets in single or multi-bay installations. Kit includes four, non-locking, 2½" diameter casters, and two, easy-to-install, 25" L mounting/supporting brackets. Model accommodates the 25.5" D 200 and 500 Series cabinets.

RCK-30 Caster kit provides for caster installation onto 19" width x 30" depth cabinets in single or multi-bay installations. Kit includes four, non-locking, 2½" diameter casters, and two, easy-to-install, 25" L mounting/supporting brackets. Model accommodates the 30" D 200 and 500 Series cabinets.

RCK-700* Heavy-duty, 2½" diameter non-locking swivel casters have a load-bearing capacity of 255 lbs. each and will work with 700 Series cabinets. Units are zinc-plated and include black, hard-tread wheels. Sold in pairs.

* 4 casters are recommended for all cabinets. Single or multi-bay.

Leg Levelers

LL-2 Heavy-duty levelers, screw mount to cabinets equipped with leg leveler sockets to provide stabilization on uneven surfaces. Four-piece set will mount FMA Series cabinets. Each leveler is easily adjusted with standard wrenches. LL-2 has ¾"-16 x 3" threads and includes a screw-mounted, heavy-duty hard rubber cushion with chrome cap. Model LL-2 is recommended for use as a four-piece set only.

Rear Rail Provisions

| | |
|----------------------------|------------------|
| 100 Series Racks | No Rear Rails |
| FMA/WMA /300 Series | Own Proprietary |
| 200/500/700 | Rear Rail Series |

Mounting Rail Hardware Kits All Screws Have 10–32 Threads.
