

Camera Floor Stand

The Camera Floor Stand supports the leading PTZ cameras and select video bars including the Cisco Room series, Poly Studio series, Logitech MeetUp and more. The stand is adjustable from 25-42 inches and is perfect for classrooms, multi-use collaboration areas, and ad hoc spaces.

Its sturdy, free-standing design makes it easy to move to position the camera where needed, while offering infinite camera angle options. The stand's small footprint reduces tripping concerns compared to standard tripod stand and makes it easy to store the stand without having to remove the camera.
