Designed for large scale pole mounted installations, the BT7853 is a heavy duty alternative to standard Ø50mm poles. Made from 3.2mm thick steel capable of supporting heavier loads, poles are available in 2m or 3m lengths which can then be cut to an exact length if required. Safety bolt holes at the top and bottom of the pole are included for a secure installation. The BT7563 is internally unobstructed for cables to pass through easily and poles can also be fixed together to create even larger installs, using BT7824 External Pole Joiner.

**FEATURES**

- 3.2mm thick steel is capable of supporting heavy loads
- Poles can be cut to length if required
- Can be mounted from floors, ceilings or both for more mounting flexibility
- Allows back-to-back System X configurations to be created when combined with BT8390-CFK Collar Fixing Kits
- Compatible with all B-Tech Ø50mm accessory collars such as the BT7841 and BT7051
- Can be mounted from floors, ceilings or both for more mounting flexibility
- Features safety bolt holes at top and bottom for secure installation
- Poles can be linked together using BT7824 External Pole Joiner

**SPECIFICATION**

- Steel thickness: 3.2mm
- Max Load: 350kg
- Lengths available: 2m, 3m
- Colour: Black

*Poles can be cut to an exact length if required*
