

This OM3 Duplex Multimode Fiber Optic Cable is ideal for connecting 10GBase-SR, 10GBase-LRM, SFP+ and QSFP+ transceivers for 10 gigabit network connections. The Uniboot connector allows two fibers to be carried through a single jacket. This reduces the surface area of the cable when compared to standard duplex cables, allowing this cable to facilitate improved airflow within a data center. This cable provides backward compatibility with existing 50/125 equipment and the performance headroom required to support LED and VCSEL laser light sources, and 10 gigabit Ethernet applications in a datacenter or wiring closet.

<

## Features & Benefits

Uniboot connector allows two fibers to be carried within a single jacket

Constructed to support OM3 transmission standards

Support for 10 Gigabit Ethernet communication

## Specifications

### General Info

Product Line	C2G	Color	Aqua
UPC Number	757120010128	Country Of Origin	Hong Kong
Application Sector	Commercial, Industrial	Type	Cable

### Dimensions

Cable Length	3.3 ft
--------------	--------

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

### Technical Information

Fiber Optic Cable Type	Multimode, OM3	Jacket Material	PVC (Polyvinyl Chloride)
Bend Radius	10 mm	Simplex/Duplex	Duplex
Cable Type	Fiber Optic	Jacket Rating	OFNR Rated, FT4 Rated
Data Transfer Rate	10 Gbps	Adapter Rear	LC Male, LC Male
Adapter Front	LC Male, LC Male	Fiber Size	50/125
