

C2G
5/8 x 72in Vertical Grounding Bar Kit (TAA Compliant)
Part No. CG-14630

This Vertical Grounding Bar is an ideal solution for creating a ground contact for standard rackmount equipment. Constructed of 1/4in thick electrolytic tough pitch 110 copper alloy, this grounding bar features drilled and tapped holes for ground wire jumpers. Those jumpers bridge to the rack mounted equipment through grounding straps, allowing a direct path to ground rather than going through surrounding equipment. This grounding bar accommodates one hole lugs or two hole lugs (5/8in on center) and has 2 PEM studs at both ends for ground conductor connection.

Features & Benefits

- 1/4in thick electrolytic tough pitch 110 copper alloy bar
- Accommodates one hole lugs or two hole lugs (5/8in on center)
- 2 PEM studs at both ends for ground conductor connection

Specifications

General Info

Product Line	C2G	Color	Yellow
UPC Number	757120146308	Country Of Origin	United States
Application Sector	Commercial, Industrial	Warranty Type	Lifetime
Type	Accessory, Kit		

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
