Shown in the Cherry finish

The Sorrento electric fireplace will quickly turn your room into a cozy conversation space for warm family gatherings. Not only is it packed with heat functions and adjustable flame displays; it also doubles as an entertainment stand with additional storage solutions. The mantel top is long enough to accommodate flat panel TVs up to 50 inches. A long A/V shelf lies underneath, creating a convenient compartment for items like soundbars, DVD players, game consoles, and cable boxes. Four small storage compartments are located on both sides of the fireplace insert. These shelves are concealed behind cabinet doors and offer a convenient place for media storage and other small items.

The multi-color LED insert produces 5,115 BTUs of fan-forced heat that quickly warms a 210-sq. ft. room. An enchanting flame display dances across the back of the firebox, creating movement that is sure to catch your eye. Embers of light glaze across the logs within, adding more depth to the realistic log display. The brightness, flame color, and heat settings can be adjusted at the push of a button, and the flames can operate without heat—perfect for use throughout the year.
