IMPORTANT WARNINGS AND CAUTIONS!

WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

NOTES:

- SUITABLE FOR USE IN OTHER ENVIRONMENTAL AIR SPACE IN ACCORDANCE WITH SECTION 300.22, (C) OF THE NATIONAL ELECTRICAL CODE.
- The maximum specified ambient temperature of the cabinet system is 40° - 120°F (4° - 49°).
- Minimum spacings between the accessories and components and the housing for Information Technology Communication Equipment shall be maintained for safe operation of the equipment when installed in accordance with the National Electric Code, ANSI/NFPA 70-1999. Refer to communication equipment manufacturer's specifications for minimum spacings.
- This Cabinet System is for use with ITE or Audio/Video equipment only.
DIMENSIONS

LEGEND

- **Tighten Fastener**
  - Apretar elemento de fijación
  - Befestigungsteil festziehen
  - Apertar fixador
  - Serrare il fissaggio
  - Bevestiging vastdraaien
  - Serrez les fixations

- **Loosen Fastener**
  - Aflojar elemento de fijación
  - Befestigungsteil lösen
  - Desapertar fixador
  - Allentare il fissaggio
  - Bevestiging losdraaien
  - Desserrez les fixations

- **Phillips Screwdriver**
  - Destornillador Phillips
  - Kreuzschlitzschraubendreher
  - Chave de fendas Phillips
  - Cacciavite a stella
  - Kruiskopschroevendraaier
  - Tournevis à pointe cruciforme

- **Pencil Mark**
  - Marcar con lápiz
  - Stiftmarkierung
  - Marcar com lápis
  - Segno a matita
  - Potloodmerkteken
  - Marquage au crayon

- **Drill Hole**
  - Perforar
  - Bohrloch
  - Fazer furo
  - Praticare un foro
  - Gat boren
  - Percez un trou

- **Hex-Head Wrench**
  - Llave de cabeza hexagonal
  - Sechskantschlüssel
  - Chave de cabeça sextavada
  - Chiave esagonale
  - Zeskantsleutel
  - Clé à tête hexagonale
TOOLS REQUIRED FOR INSTALLATION

PARTS

Grounding screw and washer installed at factory

Earthing symbol IEC 60418 No. 5019 affixed adjacent to grounding terminal.

A (1) [In-Wall Enclosure]
B (4) [Mounting Spacers]
C (8) M7 x 40mm
D (4) M7 x 50mm
E (1) M4
F (6) 08 x 1/2" [Extras if needed for installing electrical box]
INSTALLATION

WARNING: IMPROPER INSTALLATION CAN RESULT IN DEATH OR SERIOUS PERSONAL INJURY! This accessory should be installed by qualified personnel.

Site Preparation

Locate and Prepare Mounting Site

1. Identify a suitable wall location for the in-wall enclosure.

IMPORTANT!: The PAC-501 is designed for in-wall installation spanning a minimum of three wood studs, 16" on center. Installation of PAC-501 in 2 x 4 wall results in nearly direct contact with vertical studs and back wall. Inadequate space will remain for electrical wires/cables, plumbing, ductwork, or insulation. Locate installation accordingly.

WARNING: ELECTRICAL SHOCK HAZARD! CUTTING OR DRILLING INTO ELECTRICAL WIRES OR CABLES CAN CAUSE DEATH OR SERIOUS PERSONAL INJURY! ALWAYS make certain area behind mounting surfaces is free of electrical wires and cables before cutting, drilling, or installing fasteners.

WARNING: EXPLOSION AND FIRE HAZARD! CUTTING OR DRILLING INTO GAS PLUMBING CAN CAUSE DEATH OR SERIOUS PERSONAL INJURY! ALWAYS make certain area behind mounting surfaces is free of gas, water, waste, or any other plumbing before cutting, drilling, or installing fasteners.

2. Using a stud sensor, locate and mark studs.
3. Center and level housing between marked studs.
4. Using housing as a template, draw pencil line completely around housing. (See Figure 1)
5. Cut drywall on outside edge of line and remove.

Frame Housing

The exposed portion of the center wood stud must be removed and the resulting cavity completely framed with wood. The following steps are suggested. The actual procedure is dependent upon the specific installation.

WARNING: STRUCTURAL FAILURE HAZARD! FAILURE TO TAKE ADEQUATE PRECAUTIONS CAN LEAD TO DEATH OR SERIOUS INJURY! Ensure removal of center stud will not cause unacceptable loss of structural strength. Consult a qualified building contractor and applicable building codes.

1. Remove exposed portion of center wood stud flush with upper and lower drywall edges.
2. Cut four 8" long support blocks out of 2 x 4 wood.
3. Using three #10 x 2-1/2" countersunk wood screws (not provided), attach each support block to the studs (See Figure 2)
   **NOTE:** Ensure screws are far enough from block end to prevent interference with framing screws installed in Step 6.
4. If necessary, cut rectangular hole in horizontal framing to accommodate the PAC-GB1 electrical box accessory.
5. Attach horizontal framing to each support block with two #10 x 2-1/2" countersunk wood screws (not provided). (See Figure 2)

**In-Wall Enclosure Installation**
1. Install PAC-GB1 electrical box accessory into the PAC-501 (A) following instructions included with the PAC-GB1.
2. Connect electrical wiring.
3. Route audio/visual cables into housing.
4. Center PAC-501 (A) in opening and insert into opening. Align front of box with front face of wall. (See Figure 3)

![Figure 3](image)

**WARNING:** ELECTRICAL SHOCK HAZARD! CUTTING OR DRILLING INTO ELECTRICAL WIRES OR CABLES CAN CAUSE DEATH OR SERIOUS PERSONAL INJURY! ALWAYS make certain area behind mounting surfaces is free of electrical wires and cables before cutting, drilling, or installing fasteners.
5. Drill four 3/16" diameter pilot holes in studs at side mounting holes. (See Figure 4)
6. Attach the PAC-501 (A) to side studs using four M7 x 50mm Allen head connector screws (D) and mounting spacers (B) using an M4 Allen head drill bit (E). (See Figure 4)

![Figure 4](image)

**NOTE:** The PAC-501 has 1/2" total clearance between the two studs. The spacers allow side to side adjustment.
7. Drill eight 3/16" diameter pilot holes in horizontal framing at top and bottom mounting holes. (See Figure 5)
8. Attach the PAC-501 (A) to horizontal framing using eight M7 x 40mm Allen head connector screws (C) using an M4 Allen head drill bit (E). (See Figure 5)

![Figure 5](image)

**DANGER:** IMPROPER WIRING CAN LEAD TO DEATH OR SEVERE PERSONAL INJURY! Grounding must be installed by qualified personnel using a UL Recognized No. 12AWG Green and Yellow grounding wire connected to grounding lug on mount.
**Installing Arm Kit**

Install arm kit following instructions included with the kit.
