IMPORTANT WARNINGS AND CAUTIONS!

WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer’s responsibility to make sure all components are properly assembled and installed using the instructions provided.

WARNING: Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer’s responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer’s responsibility to make sure the combined weight of all components on the cart does not exceed 125 lbs (56.70 kg) for the MFC, and 200 lbs (90.72 kg) for the PFC.
DIMENSIONS

NOTE: CUSTOM INTERFACE BRACKET NOT SHOWN. THE CUSTOM INTERFACE BRACKET NEEDED FOR DISPLAY WILL ADD BETWEEN 1/2" AND 2" IN DEPTH AND MAY AFFECT LOCATION OF DISPLAY ON THE MOUNT.

HEIGHT ADJUSTMENT: 48" TO 72" IN 2" INCREMENTS [GROUND TO MIDDLE OF SCREEN]

TILT / ROLL / YAW: ±15° / ±45° / ±5°

MEASUREMENTS IN: [MILLIMETERS] INCHES

TOOLS REQUIRED FOR INSTALLATION

3/16" (Included)

PARTS
ASSEMBLY

CAUTION: Attachment holes may be damaged if a power drill is used to insert button head cap screws. Screws should first be inserted and turned BY HAND with the hex key or with a handheld screwdriver BEFORE using the hex head drill bit and power drill to complete the attachment.

Assembling Cart
1. Assemble two legs (A) and (B) to the cart cross bracket (F) using two 5/16-18x4-1/4" button head cap screws (N) per leg. (See Figure 1)

Figure 1

CAUTION: Attachment holes may be damaged if a power drill is used to insert button head cap screws. Screws should first be inserted and turned BY HAND with the hex key or with a handheld screwdriver BEFORE using the hex head drill bit (J) and power drill to complete the attachment.

IMPORTANT!: Disengage knob on center post BEFORE attaching base to the center post.

2. Lift up on the inner column of center post. (See Figure 2)

3. Pull out knob on the center post and turn 90° in either direction to disengage the locking mechanism. (See Figure 2)

4. Raise the inner column and turn the knob 90° in either direction to engage the knob and lock the column in place. (See Figure 2)

5. Attach center post (E) to leg assembly using four 5/16-18 x 2-3/4" button head cap screws (M) and four 5/16" washers (P). (See Figures 3 and 4)
IMPORTANT! When attaching head assembly ensure that the ClickConnect lock is at TOP of head assembly, and bracket tabs slide into the stand assembly. (See Figure 5)

1. Slide head assembly (G) or (H) into the stand assembly. (See Figure 5)

2. Attach head assembly (G) or (H) to the cart assembly using four 5/16-18 x 3/4" button head cap screws (L). (See Figure 5)

ATTACHING DISPLAY TO CART

WARNING: EXCEEDING MAXIMUM WEIGHT CAPACITY MAY LEAD TO SERIOUS PERSONAL INJURY OR DAMAGE TO EQUIPMENT! It is the installer’s responsibility to ensure the total amount of weight placed on the cart does not exceed 125 lbs (56.70 kg) for the MFC, and 200 lbs (90.72 kg) for the PFC.

CAUTION: Before attaching display to cart set the brakes on the back wheels by pressing down on the tab. (See Figure 6)

1. Adjust the cart to the desired height by slightly lifting the inner column, pulling out knob on the center post and turning 90° in either direction to disengage the locking mechanism. (See Figure 7)

2. Raise or lower the center post, then turn the knob 90° either direction to engage the knob and lock the cart at desired height. (See Figure 7)

3. Attach a PSBU or MSBU interface bracket to the display following the instructions included with the bracket.

4. While supporting both sides of display, align four mounting buttons on display or interface bracket with four mounting holes in head assembly. (See Figures 8 and 9)
**WARNING:** DISPLAY MAY WEIGH IN EXCESS OF 40 LBS! Always use two people and proper lifting techniques when installing or positioning display on cart.

5. Lower display into place listening for audible “click” to ensure recessed area of mounting buttons are properly seated in lower area of mounting holes. (See Figures 8 & 9)

**WARNING:** IMPROPER INSTALLATION CAN LEAD TO CART OR DISPLAY FALLING CAUSING SERIOUS PERSONAL INJURY OR DAMAGE TO EQUIPMENT! Ensure mounting buttons are completely engaged in mounting holes.

**NOTE:** Holes are provided in the faceplate for use with a padlock or similar locking device, if desired. In addition, the pin and nut may be removed from the upper holes and moved to the lower holes for use as a more permanent locking device. (See Figure 9)

---

**Tilting Display**

The display can be tilted up to 15° either backward or forward from a straight upright position.

1. Turn knob counterclockwise on back of head assembly to loosen the tilt. (See Figure 10)

2. Tilt display as desired, to a maximum of 15° either forward or backward.

3. Turn knob clockwise to tighten display on head assembly. (See Figure 10)

**CAUTION:** Tighten knob on back of head assembly to prevent damage when moving the cart and display.

4. If leaving the display in a straight upright position, it is recommended that a bolt (not provided) be placed through the head assembly (See Figure 10) to lock the display into the upright position.

---

**Cable Management**

1. Signal cables can be run down the front flap of the center post and out the front of the post at any of the openings. (See Figure 11)

2. The display power cord can be run through the top and down through the post to exit out the back. (See Figure 11)

3. Any accessory power cords can be run through the front and down through the post to exit out the back. (See Figure 11)

4. Install the snap-on covers to any opening that is not being used. (See Figure 11)

5. To remove the snap-on covers, grip the sides of the cover in the middle and pull off. They can also be removed by inserting a flat-blade screwdriver into the bottom slot and rotating the screwdriver.
Cart Use and Maintenance

**CAUTION:** This cart is intended for use only with the products and maximum weights indicated (125 lbs [56.70 kg] for the MFC, and 200 lbs [90.72 kg] for the PFC). Use with other products or products heavier than the maximum weights indicated may result in instability causing possible injury.

**WARNING:** CART CAN TIP OVER RESULTING IN RISK OF INJURY. Do not allow children under 16 to move cart. Only adults should move this cart. Move cart slowly. Apply moving force on narrow dimension. Never apply force at top - always push near middle. Push, don't pull.
Removing Display from Cart

1. Remove bolt or padlock from faceplate (if used). (See Figure 14)

   **NOTE:** The pin may have been used as a more permanent locking device. If so, remove nut and pin and move from the lower holes to the upper holes.

2. Pull back on flag on upper mounting hole and press pin down into "Open" position. (See Figure 14)

   **WARNING:** EACH DISPLAY MAY WEIGH IN EXCESS OF 40 LBS! Always use two people and proper lifting techniques when installing or positioning display on stand.

3. Carefully lift display from cart.

4. Lift up on pin and place flag back against faceplate to return it to "Closed" position. (See Figure 14)
