

COH-750

7.5" TABLE-TOP CLEANBURN SMOKELESS FIRE PIT/DUAL-FUEL

Same Features/Function as the Original, just in a more compact 7.5"(W)x6.5(H) footprint for any Outdoor Table-Top gathering.

- **Low Smoke Design:** The double-walled design with 304 stainless-steel interior and high-heat black enameled steel outside bowl creates a natural gas shield, which in return yields a smokeless fire.
- **Air Flow:** The innovative bottom vent design pulls oxygen in, feeding the flames from below, while also traveling between our curved shaped double walls causing the air to heat up.
- **Cleanburn Design:** The curved interior allows for additional airflow, creating an instant ignition while creating a long-lasting burn. The insulated bowl creates extreme clean-burning heat and finishes with nothing but ash.
- **Dual-Fuel compatible** - Heats with Mini split-logs up to 6" or less, Wood Chunks and Wood Pellets.
- **Patent-Pending, Easy Clean Ash Tray:** Clean-up is a breeze and just takes 2 steps with our patent pending design Ash Tray base of 304 stainless-steel, simply remove the fire bowl and lift the base to empty ashes. The ash collects into the ash tray. This ash tray also will keep the embers and coals contained so they don't clog the airflow.
- **Easy Assembly:** No tools required! Simply place the fire bowl onto the base ash tray and it is ready to use. Nests together for compact storage or transport.
- **Table-Top Cover:** Offers weather protecting coverage and can be used to transport to other locations got a gathering easy.
