

CPB-300P1 Cuisinart SmartPower[®] Compact Portable Blender

Meet the Cuisinart SmartPower[®] Compact Portable Blender – the compact powerhouse that does it all! Use the streamlined blending cup to make smoothies in a flash! Mince herbs in the chopper cup and whip up custom drinks right in the “To-Go” cups – we’ve included four of them so everyone can have their favorite! Designed to fit anywhere, the Compact Portable Blender delivers big blender performance with a 350-watt motor and the ease of single hand operation with the user friendly electronic key pad! Stainless steel accents create an attractive, fashionable addition to any kitchen. New BpA free Tritan™ from Eastman co-polyester is used for the all vessels – blender, chopper and your “To-Go” cups. They are all shatter resistant and dishwasher safe. A real time saver, clean up and maintenance become simple chores.
