21:9 ULTRAWIDE FORMAT PRODUCTS

Da-Lite offers a complete line of electric and fixed frame screens in 21:9 Ultrawide Format standard part numbers.
The Tensioned Advantage® ceiling recessed electric screen series is designed with ceiling trim in place, concealing the rough opening and eliminating the need to complete additional trim work once the screen is installed. Its two-stage installation option allows the screen case to be installed during the rough-in construction stage, and the screen surface assembly during the finishing stage. Sliding installation brackets allow mounting flexibility for easy attachment of the screen housing to the structure above the drop ceiling.

Da-Lite’s new cable drop feature, SightLine™, available with the Tensioned Advantage electric screen, gives the impression of a floating screen. Its single roller design features 3 or 4 thin cables eliminating the need for black drop – the black border above the projection screen. While the market is accustomed to specifying drop distance upon ordering, now vertical placement of the screen can be variable as the cables accommodate a range of drop distances up to 70”/180 cm between the ceiling and the top of the screen – making ordering a snap. What’s more, this feature creates usable space above the viewing area to preserve architectural interests and provides the opportunity for camera/speaker placement.
**ELECTRIC SCREENS**

**Tensioned Contour**

The Tensioned Contour® Electrol® is the latest ceiling or wall-mounted electric screen offering simple installation. A variety of finishes make this a seamless addition to any room.

**Ultrawide Projection Screens**
FIXED FRAME SCREENS

Cinema Contour

The Cinema Contour® features a wider, substantial frame as well as the latest technology in projection surfaces designed for 4K and Ultra HD to maximize the technology of your projector. The larger standard black frame gives the eye a point of reference and enhances contrast for film purists and aficionados. The Cinema Contour can be customized by frame, finish, size and surface.
FIXED FRAME SCREENS

UTB Contour

The UTB Contour® has an ultra-thin bezel frame and low profile. Designed to look like a large flat panel, the UTB Contour can more than double the size of the largest flat panel televisions available.
