

The FocalPoint® is designed for all your portable projection screen applications both large and small. The FocalPoint® retains the modular frame construction that makes Draper's StageScreen® so popular. With small profile frame segments made of sturdy extruded aluminum, the FocalPoint is extremely rigid and durable, while remaining lightweight. With no hinges, the FocalPoint® is strong, and still features quick and easy assembly. All available sizes of FocalPoint are built from combinations of the same frame segments. Even the legs are constructed using these frame segments. The FocalPoint® ships complete with legs, frame, surface, carrying case and tarp.

For rental applications, improve your ROI while easily streamlining inventory with the FocalPoint. You can easily build multiple screen sizes from a common inventory of frame segments, only requiring you to purchase separate viewing surfaces for different sizes. May now be flown with our new Fly Brackets.

Screen Type

Standard and small venue modular construction portable projection screen

Viewing Surfaces

- **OptiFlex Family** (tensioned front screen surfaces): Matt White XT1000V. Other surfaces available, contact Draper for details
- **CineFlex Family** (rear projection screen surfaces): CineFlex CH1200V, CineFlex MH800V, and CineFlex White XT600V
- **TecVision** (premium engineered screen surfaces): XH700X Grey, XH900X Grey, MS1000X Grey, XT1000X White, XT1100X White, XT1300X White, XT1600X White, XT1800X White

Features

- Viewing surface attaches with Draper's unique DuraLoop™ bungees and convenient nylon pull-tabs. The result is a perfectly flat self-centering viewing surface that attaches quickly and easily—with no snaps.
- Viewing surface includes a black border that extends past the edge of the frame, neatly hiding the DuraLoops and frame posts
- Patent Pending

Options

- **Viewing Surfaces**—Numerous tensioned viewing surfaces available.
- Dress Kits are available, featuring Inherently Flame Retardant Velour. A FocalPoint Dress Kit consists of a skirt, valance, and a pair of side drapes. The skirt features simple attachment with convenient magnetic fasteners. Valance bars and drapery bars hook instantly onto the viewing surface posts, and drapes and valance attach with DuraLoops.
- Silver or black anodized frame is available

Sizes

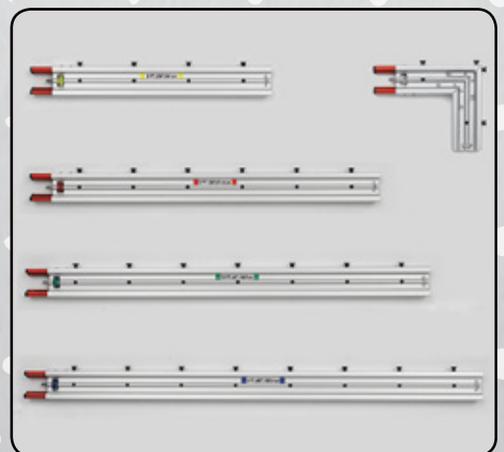

- **16:10 Format**—from 94" (239 cm) to 283" (719 cm) diagonal
- **16:9 HDTV Format**—from 92" (234 cm) to 275" (699 cm) diagonal
- **4:3 NTSC/PAL Format**—from 100" (254 cm) to 300" (762 cm) diagonal
- Custom sizes available
