Rigid Industrial BNC Adapter (M/F) - IP68, Black

MODEL NUMBER: **A200-FF-BNC**

Panel-mount adapter changes a male BNC connector to female, allowing a secure link between two male BNC connectors.

Features

Connects Coaxial Cabling on Plant Floors and Harsh Outdoor Environments
This rigid industrial adapter (M/F) fastens tightly to a male BNC connector and changes it to female. The A200-FF-BNC is designed for coaxial cables' indoor or outdoor use wherever heavy vibrations, water and dust are present, including industrial plants, warehouses and other manufacturing settings.

IP68 Rating Denotes Resistance to Dust and Water
The IP68 rating means the A200-FF-BNC is not only 100% protected against dust, but also able to endure immersion in 1.5 meters of water for up to 60 minutes with no damage or decline in performance, keeping the cable safe in storms and other foul weather. The BNC connector locks into place to ensure your AV connection remains stable and secure.

High-Quality Components
The A200-FF-BNC is recommended for transmitting high-definition television signals from cable/satellite boxes. Molded nickel-plated connectors with gold-plated contacts provide maximum conductivity and minimum data loss to guarantee a clear transmission. An included dust cap keeps the adapter free of debris when not in use.
