- Administrative management is accomplished through the Administration and Security Management 1.2
 utility. This free download (see Support tab above) provides management of user credentials, CAC
 device management, logs, EDID locking and restoring factory defaults.
- The Admin and Security Management 1.2 utility is available for Windows only. For managing Mac computers connected to the KVM, settings must be applied through a Windows PC.

8-Port Single-Monitor Secure KVM Switch, DisplayPort - 4K, NIAP PP3.0, Audio, CAC, TAA

MODEL NUMBER: B002A-DP1AC8

NIAP-certified KVM switch lets you switch between 8 computers with government- and military-level security and data protection.

Features

8-Port DisplayPort KVM Switch Is Ideal for Applications That Demand Secure Networks

This eight-port KVM switch is recommended for any government, military, financial or healthcare environment where tight security of sensitive data is of utmost importance in a world of constantly changing cyberthreats. Each KVM port is an electronically isolated channel, making it impossible for data to be transferred between connected computers through the KVM. The single-monitor switch supports crystal-clear Ultra HD video resolutions up to 3840 x 2160 (4K x 2K) at 30 Hz.

NIAP PP3.0 Certified to Meet Today's Top Information Assurance Standards

This KVM switch is certified by NIAP (National Information Assurance Partnership), which is operated by the National Security Agency (NSA), to the latest Common Criteria Protection Profile for Peripheral Sharing Switches Version 3.0. Discrete processing paths to each connected system prevents data leakage, transfer and crosstalk between adjacent ports. Peripheral isolation enables data to flow from device to host only.

Top-of-the-Line Security Features Keep Your Data Safe

Special protection prevents re-programming of firmware, so the switch's KVM logic remains unaltered. The keyboard buffer clears automatically after data transmission, ensuring no information is left stored. Plus, you can only access connected computers via buttons on the switch's panel. Other port-switching methods, such as On-Screen Display (OSD) and Hotkey Commands, have been excluded to further ensure data integrity.

CAC Port Supports Biometric and Other Smart Card Readers

The Common Access Card port supports smart cards, scanners and biometric readers, including fingerprint readers, to bolster security. You may assign and register specific peripherals to the CAC port, providing a secure connection for user authentication.

Anti-Tampering Protection Prevents Physical Breeches

If the housing is opened, internal anti-tamper switches will disable the unit, causing it to become inoperable and the front-panel LEDs to flash repeatedly. Seals on the enclosure will provide visual evidence of tampering.

Highlights

- Safely and securely switches between 8 isolated computers with different security levels
- Certified to NIAP/Common Criteria Protection Profile for Peripheral Sharing Switches V3.0
- Common Access Card (CAC) port supports biometric and other smart card readers
- Supports UHD resolutions up to 4K @ 30 Hz for crystal-clear video
- Complies with Federal Trade
 Agreements Act (TAA) for GSA
 Schedule purchases

Applications

- Control up to 8 computers with different security levels from a single monitor/keyboard/mouse
- Operate smart cards, scanners, fingerprint readers and other biometric devices via the CAC
- Protect private information, such as medical or military intelligence data, from cyberattacks

System Requirements

- DisplayPort monitor
- Wired USB mouse/keyboard with no internal hub or composite device functions (wireless mouse/keyboard not supported)
- Computer with DisplayPort and

Maintains Constant Keyboard and Mouse Emulation for Smooth No-Delay Switching

Full USB device filtering ensures support for keyboard and mouse only. This KVM switch also supports secure video emulation and EDID learning, which prevents unwanted data from transmitting through the DDC lines. Both keyboard/mouse and video emulation controllers restrict discovery of newly connected peripherals or monitors during switching operations, shielding your computers from potential vulnerabilities.

Accessory Cable Kits - P783-006-U and P783-010-U

Designed specifically for the B002A-DP1AC8, Tripp Lite's P783-006-U and P783-010-U KVM cable kits (sold separately) help eliminate unnecessary clutter and save you money by combining cables into one convenient kit. These cables comply with HDCP 2.2 and DisplayPort 1.2 standards and support USB 2.0 speeds up to 480 Mbps.

TAA-Compliant for GSA Schedule Purchases

The B002A-DP1AC8 is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.

USB ports (USB 2.0 required for CAC support)

- Computer and speakers with 3.5 mm stereo audio port (optional)
- Windows, Mac, Linux or any other major operating system

Package Includes

- B002A-DP1AC8 8-Port NIAP PP3.0-Certified DisplayPort KVM Switch
- External power supply w/NEMA
 1-15P plug & 5 ft. cord (Input:
 100–240V, 50/60 Hz, 0.8A;
 Output: 12V 3A)
- Owner's manual

Specifications

OVERVIEW		
UPC Code	037332261519	
Technology	DisplayPort; USB	
VIDEO		
Max Supported Video Resolution	3840 x 2160 @30Hz	
Max Supported Color Depth	36-bit Deep Color	
Chroma Sub Sampling	4:4:4	
INPUT		
Voltage Compatibility (VAC)	100; 110; 125; 127; 200; 208; 220; 230; 240	
Redundancy - Dual Power Inputs	No	
External Power Supply Plug(s)	NEMA 1-15P North America
