## 1000 Eaton Boulevard Cleveland, OH 44122 United States

# 1-Port HDMI over Cat6 Receiver, Wall Plate - 4K 60 Hz, HDR, 4:4:4, PoC, HDCP 2.2, 230 ft. (70.1 m), TAA

# MODEL NUMBER: B127A-1A0-FH

Works with a Tripp Lite B127A-Series transmitter, switch or splitter to extend 4K video 230 ft. to an HDMI display via Cat6 cable.

# Features

### HDMI Extender Receiver Ideal for Digital Signage in Schools and Workplaces

This 4K receiver is recommended for video presentations in conference rooms, schools, trade shows, meeting facilities, houses of worship, retail settings, hotels and other digital signage applications where the source and display are farther apart than conventional A/V cables allow.

#### Extends a 4K A/V Transmission up to 230 ft....or Even Farther

The B127A-1A0-FH connects to a B127A-Series transmitter, switch or splitter to extend 4K signals from an HDMI source to an HDMI display up to 230 feet (70.1 meters) away via user-supplied Cat6 cabling. By adding a B127A-010-H signal repeater (sold separately) to the application, you can extend the signal up to 400 feet (121.9 meters).

#### Supports Crystal-Clear 4K Video with Multi-Channel Audio, HDR and 4:4:4 Color

The B127A-1A0-FH supports Ultra HD resolutions up to 3840 x 2160 (4K x 2K) at 60 Hz with 7.1-channel surround sound audio. High Dynamic Range (HDR) provides a wide range of vibrant colors with richer contrast, brighter whites and deeper blacks that pop on your 4K display. HDCP 2.2 compliance allows you to stream 4K Amazon and Netflix content with no complications. This receiver also supports 4:4:4 chroma subsampling for top-level PC gaming or using your HDTV as a PC monitor. Built-in equalization allows you to fine-tune the image quality at the remote display.

#### Built-In PoC Technology Provides Receiver Power to Avoid Bulky External Power Bricks

Power over Cable (PoC) technology powers the B127A-1A0-FH over Cat6 cable. An LED indicates when the receiver and transmitter are connected. PoC lets you avoid the hassle of a bulky power brick and gives you the freedom to place the receiver where needed without worrying about finding a nearby AC outlet.

### Plug-and-Play Operation for Quick Setup and Immediate Use

The single-gang metal wall-plate receiver works right out of the package with no software required and all mounting screws included. Connect the receiver to a transmitter, switch or splitter with user-supplied Cat6 cable (such as N202-Series). Connect to a 4K display with a user-supplied HDMI cable (such as P568- or P569-Series).

# Highlights

- Supports 4K @ 60 Hz video resolutions (4:4:4) as specified in HDMI 2.0
- Carries High Dynamic Range (HDR) signals for rich contrast and expanded color accuracy
- Combines with optional B127A-010-H repeater to extend signal to 400 ft.
- Power over Cable (PoC) technology provides power to the receiver via Cat6 cable
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

### Applications

- Extend video signals from one room to another using Cat6 cable, which can pass through conduit to meet building codes
- Gain flexibility in where the receiver is placed, with the freedom to move and relocate it away from an AC outlet
- Improve the line of sight for digital signage in a hotel, restaurant, theater, house of worship, trade show or other location

### **System Requirements**

- Source device with HDMI output (Blu-ray player, cable box, laptop)
- Display device with HDMI input (HDTV, projector, monitor)
- B127A-Series HDMI transmitter, switch or splitter

### **Package Includes**

- B127A-1A0-FH 1-Port HDMI over Cat6 Receiver
- Mounting screws
- Owner's manual

#### TAA-Compliant for GSA Schedule Purchases

The B127A-1A0-FH is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.
