

21-Device AC Charging Cart for Laptops and Chromebooks - 120V, NEMA 5-15P, 10 ft. (3.05 m) Cord, Black

MODEL NUMBER: CSC21AC

Charges, secures and organizes up to 21 Chromebooks and laptops in education, healthcare, retail, warehouse and office environments.

Features

Compact Mobile Charging Cart Accommodates up to 21 Chromebooks and Laptops

This 120V multi-charging station provides AC charging, secure storage and cord management for as many as 21 Chromebooks and laptops with a screen size up to 15 inches. The connected devices' AC adapters plug into 21 NEMA 5-15R outlets for charging. A built-in circuit breaker protects the devices against overloads. The laptop charging station is recommended for classrooms, businesses, medical facilities, government agencies and anywhere else that uses mobile devices on a daily basis.

Locking Steel Enclosure Keeps Valuable Equipment Safe and Secure

Constructed from heavy-duty steel covered with a black powder-coated finish, this charging cart provides safe, secure storage. Devices and their power adapters are stored in separate compartments. The front and back doors lock with the included keys to help prevent theft, damage and tampering. For extra security, the front door can be fastened with a user-supplied padlock. Flow-through ventilation helps protect against overheating, and the specially coated shelves help prevent device scratches and scuffs.

Moving Your Devices from Room to Room Is Easy

Large swivel casters with non-marking wheels improve the ride over uneven surfaces, including carpeting and thresholds, and lock to help prevent unwanted movement. The reversible wide-grip handle makes the cart easy to control. Corner safety bumpers protect walls and doorways from scratches. The compact Chromebook charging cart takes up about the same amount of physical space, or even less, as a typical A/V cart.

Well-Organized to Avoid Confusing Cable Clutter

Heavy power adapters store out of the way in removable baskets. Cables and connectors run through zoned slots and an overhead cable manager, keeping them organized and out of the way. Adjustable dividers accommodate up to seven devices per shelf, and device spaces are numbered for easy identification. A power cord wrap keeps the input cord out of the way when moving the charging station. The 10-ft. (3.05 m) cord with space-saving right-angle NEMA 5-15P plug allows great flexibility in reaching AC outlets.

Laminated Wood-Grain Top Doubles as a Convenient Workstation

The laminated top acts as a smooth writing surface and holds a projector, monitor or other peripherals. A pass-through RJ45 jack is provided for connecting Ethernet devices, such as a wireless router or hotspot, inside the cabinet.

Highlights

- 21 internal NEMA 5-15R outlets charge mobile devices with screens up to 15 in.
- Steel enclosure locks with included keys to discourage theft, damage and tampering
