

# Power Cord C14 to C15 - Heavy-Duty, 15A, 250V, 14 AWG, 10 ft. (3.1 m), Blue

## MODEL NUMBER: P018-010-ABL

# **Highlights**

- Recommended for powering PoE switches with high-wattage power supplies
- 10 ft. length allows flexibility in placing devices while avoiding cable clutter
- Ideal replacement or upgrade from the original manufacturer's power cord
- Blue jacket permits fast, easy identification in a crowded rack
- Thick 14 AWG wire gauge manages high power levels required for larger equipment

# **Package Includes**

P018-010-ABL C14 to C15 Power Cable, 10 ft. (3.1 m), Blue

Connects a PoE network switch or server with a C16 power inlet to a PDU or UPS system with C13 outlets.

#### **Features**

#### C15 to C14 Power Cord for Network Devices That Require a Heavy-Gauge Connection

This 250V power cable features 14 AWG wire suitable for high-power connections, making it reliable for large server applications that require a higher-rated, heavier-gauge cable. The C15 connector is designed for higher-temperature devices, such as PoE (Power over Ethernet) switches with high-wattage power supplies and similar network components. This cord can also replace or upgrade the standard power cord provided by the device's manufacturer.

### Blue Jacket Helps Avoid Misidentification That Can Cause Costly Downtime

The UL-listed cable has a blue SJT jacket, which is easy to identify quickly in a crowded PDU or UPS system and helps prevent the cable from becoming accidentally disconnected.

# **Specifications**

| OVERVIEW                    |                                  |  |
