

Merritt Wall Sconce

Illuminate your home with the Merritt wall sconce from AF Lighting. This sconce provides the perfect blend of style and function; perfect for lighting up any hallway, entryway, and vanity. The frame is covered in a beautiful chrome finish that integrates well with existing color schemes. The spear-like base comes to a dramatic point at the end, but is softened by a clear crystal ornament located in the center of the base. When the light is on, this crystal creates a beautiful prismatic effect as the light shines through. The sconce is topped off with a round hardback shade in beige to complete the look.
