1 4K Enhancement Technology shifts each pixel to surpass Full HD resolution on screen.
2 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IECMS 15.4; white light output measured in accordance with ISO 21118. 3 No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 – 0.20 mg/m² of particulate matter. Time varies depending on usage conditions. Replacement of parts other than the light source may be required in a shorter period. 4 HDR performance available with select third-party devices. For more information, see www.epson.com/hdrcompatibility. 5 NFC requires use of a device that includes NFC, and may require additional software. 6 Internet connection required for download. Data usage fee may apply. 7 Requires Epson external camera or built-in camera for each projector and the Epson Projector Professional Tool app. 8 Using separate camera for each projector. 9 IP5X-certified optical engine and laser light source module in accordance with IEC standard 60529. 10 For convenient and reasonable recycling options, visit www.epson.com/recycle. 11 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
