

# Assembly Instruction

1.

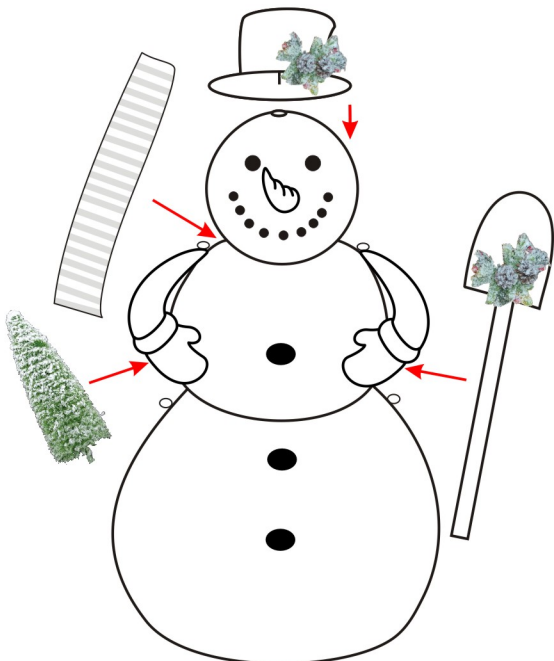

2.

1.. Take the snowman out of the package . .

Install the two half parts of the body by inserting the tubes through the circle at the bottom , and use zip tie supplied to fix the circles on both side of the body as shown in the picture above .

2. Now the body will be stable . Put the snowman's arms and head onto the body .

3.

4.

3. Put the hat onto the snowman's head and the scarf across the neck , and then place the tree and shovel through the snowman's arms .

4. Assembly is now complete , Light up with 3xAA batteries (not included) .
