

**Powerful, precise and family size  
Inverter and Sensor countertop or  
built-in microwave oven.**

GEWWD22S1SV125

UPC: 190873003403

### Key Features:

- Premium White LED Display
- One Touch Functions: Beverage, Popcorn, Dinner Plate, Frozen Vegetable, Potato, Soup, Weight/Time Defrost
- 5 Sensor Cooking Programs
- 7 Sensor Reheating Programs
- 10 Power Levels
- Premium Smooth Touch Acrylic Control Panel
- Express Cooking knob
- Inverter Technology
- Easy Clean Cavity

12.8" Removable Glass Turntable

### Inverter Technology

Unlike traditional microwave heating systems that pulse on and off, the inverter creates continuous, constant, even heat to maintain exact temperature during the cooking, reheating or defrosting process.

### Sensor Cook and Sensor Reheat

A built-in humidity sensor ensures that your food is never under- or overcooked. For precooked dishes, Sensor Reheat stops automatically when food is hot and ready to eat.

### Easy To Use Control Panel

Intuitive controls make everyday use easy.

### Express Knob

Simply turn the knob and start cooking.

### Dimensions(WxDxH)

- Cavity:** W 18 7/16" \* D 18 11/16" \* H 11 9/16"
- Product:** W 24 3/4" \* D 19 15/16" \* H 14 3/16"
