- One(1) Year Warranty

Generous 1.7 cu. ft. capacity There's plenty of space for all your favorite microwave foods, from vegetables and casseroles to baked pasta dishes and frozen meals.

True European Convection and Air Fry

Heated air circulates throughout the oven as food spins 360°, cooking your food faster and more evenly without hot spots.

4 Speed Fan Control Variable speed control at your finger tips.

LED Lighting Adds additional lighting to your cooking space.

Convertible Venting Select recirculating or exterior venting options based on your installation needs.

Sensor Cook and Sensor Reheat

A built-in humidity sensor ensures that your food is never under- or overcooked. For precooked dishes, Sensor Reheat stops automatically when food is hot and ready to eat.

Combi Speed Cooking

Faster than either mode alone, the intelligent combination of True Convection and microwave cooking creates delicious dishes with optimum texture and taste. Roast chicken, baked potatoes and frozen entrees can now be ready when you are.
