

# Content Creation Toolkit #3

content creation

## MPSK-CT3

### LIGHTS, CAMERA, ACTION – Empower Students as Content Creators!

Students love the opportunity to create video content that can emulate their favorite YouTubers. Students in English classes can create how-to videos. Students in math classes can “unbox” a new concept or solution. In social studies or science, students can create review-style videos where they analyze (also pretty high on Bloom’s Taxonomy) popular events, locations, and cultures, or famous figures, inventions, and ideals.

Finding ways to have students as content creators in school builds valuable life and career skills that will likely serve them well in their future.

Content Creation Toolkit #3 provides the value, versatility, functionality and unrivaled durability you need to produce high-quality, professional studio results!

#### Includes the On-Air!™ Podcast Kit (PCAST4):

##### (1) USB Omnidirectional/Cardioid Podcasting Microphone with Desktop Stand

This portable USB Type-C Multi-functional Microphone provides the versatility and flexibility needed to do quality broadcasts, from nearly any location, with clear, rich sound. For Windows or Mac.

##### (1) Round Microphone Windscreen/Pop Filter

Provides noise-protection, helping you get better audio recordings. The 360° flexible gooseneck arm allows precise positioning and the swivel mount is easy to install.

##### (1) Folding Sound Isolation Shield

Makes clean, controlled, and noise-free recordings, reducing unwanted room noise. Compact, portable, lightweight, foldable design. **Includes stand and base for the isolation shield.**

##### (1) Smart-Trek Deluxe Headphones (ST1BK)

The durable, sleek Smart-Trek™ deluxe headphones are versatile – compatible with a wide variety of technologies. Designed to stand up to any environment, Smart-Trek™ headphones are built to last and are tremendously comfortable with high quality leatherette ear cushions. Easily adjustable to fit all ages. Easy to clean; provides excellent noise-isolation. And, features the trusted Dura-Cord™.

##### (1) Portable Podcast Mixer Production System (PCASTM)

This Portable Podcast Mixer Production System is ideal for guitar, live streaming, podcasting, recording, chatting, broadcasting, gaming, and is compatible with PC, Mac and smart phones. Great features that make this mixer system ideal for almost any user, at any age. Features 7 customizable jingle pads, noise reduction, multi-channel streaming, 6 reverb modes, 4 preloaded audio effects, and more! Fully control your recorded podcasts for professional results!
