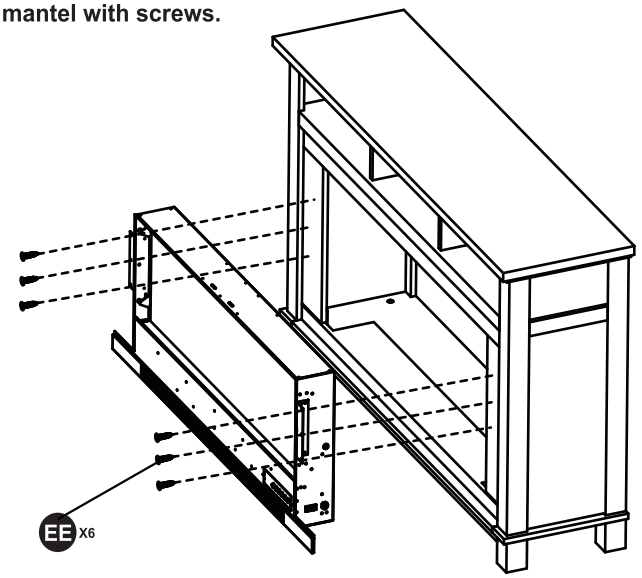
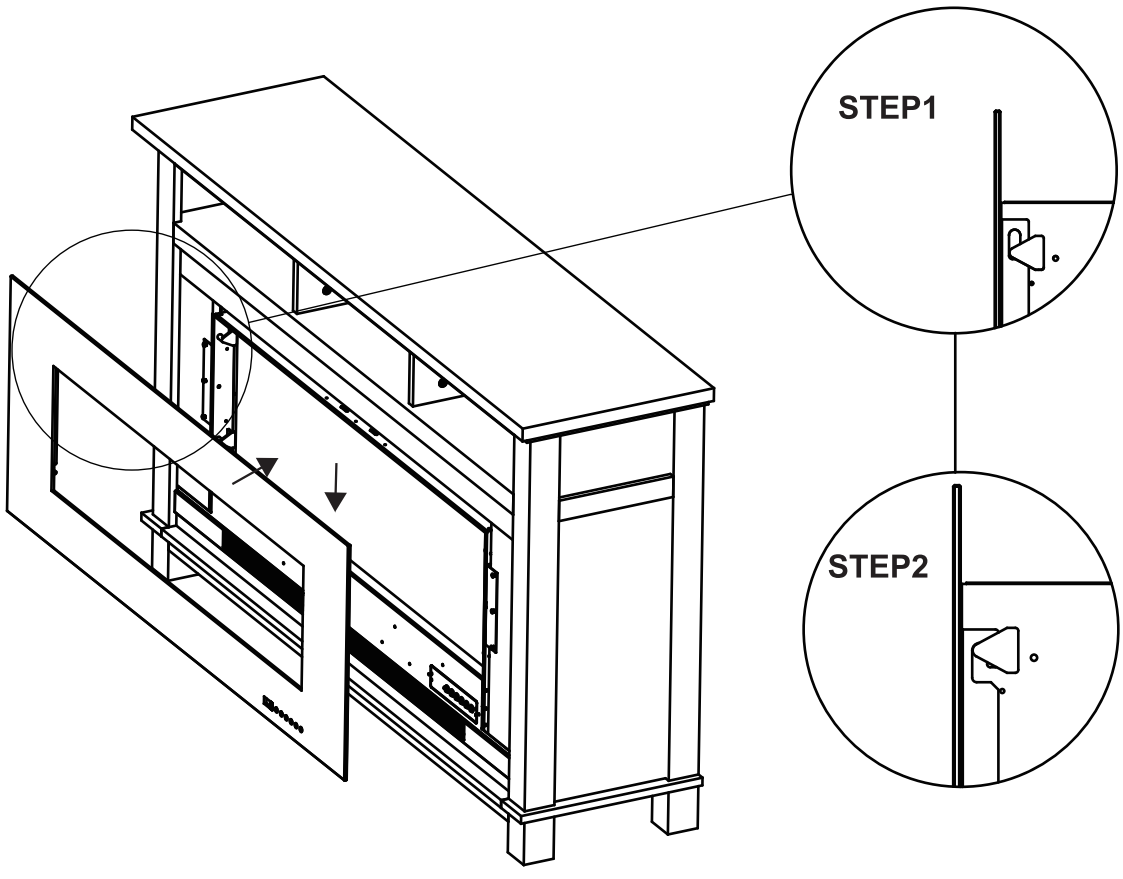
9. **Inserting the fire boxX50WMEF1BLK/WHT**

(1). Remove the outer glass from the fire box (Please refer to the fire box manual (Page 6) supplied with the fire box)

(2). Set the fire box into the mantel and secure the side trim pieces on the mantel with screws.



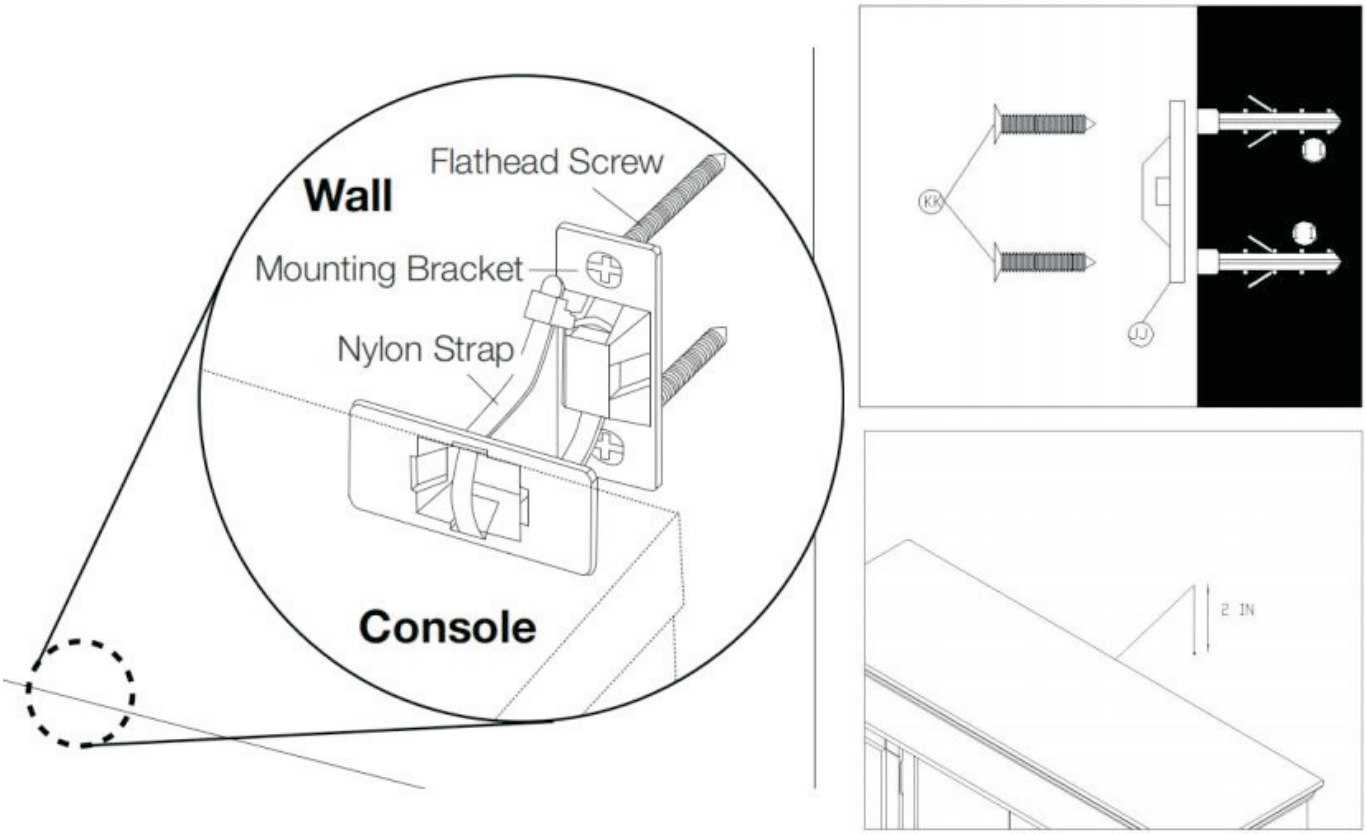
(3). Reinstall the glass pane onto the fire box.



IMPORTANT-Safety Chain Installation

WARNING:

This mantel is heavy furniture. Please be sure to correctly attach the safety chain to both the mantel and an adjacent wall. Failure to do so can cause serious injury or death.



INSTALLATION:

- **Assemble the mantel and place it in position**
- **Attach one end of the chain to a wall stud using the screw included**
- **Attach the other screw - through a link in the chain - to the center of the mantel's top board(you may need to drill a small starter hole).Put the screw through the chain link that allows the least amount of slack in the chain.**
- **Carefully test that the installed chain adequately prevents tipping or tilting of the mantel.**

NOTE:The chain must be as short as possible to prevent the mantel tippping forward. Do not allow slack in the chain.
