

## Hanover Fireplace Inserts

Do you have a built-in fireplace but avoid using it due to the mess and maintenance of a real fire? Make the most of that space with an electric fireplace insert from Hanover. Simply place the insert inside the fireplace and plug it into a standard electrical outlet nearby. This insert provides the comfort and appeal of a real fire, without the mess and stress that goes along with it. It quickly heats up a 210 sq. ft. room and can be set to a flame-only mode when additional heat in your home isn't needed, making it perfect for use throughout the year!

Curved panel option on 25-in. model (F25CINS-1BLK) only
