

HANOVER®

Electric Halogen Infrared Heat Lamp

for Hanging or Mounting

When choosing an outdoor heating system or garage heater, consider Hanover's line of electric infrared heaters. The Hanover halogen infrared heat lamp is highly effective for hanging from the ceiling, mounting to a wall, or mounted to the included stainless steel stand. Use for your patio, porch, balcony, garage, workshop, and more! Extend the use of your outdoor living space with a Hanover mountable infrared heater.

Similar to sunshine, infrared heat is a radiant heat that warms a person or an object directly, rather than heating the air in-between. Infrared heat can be felt instantly as soon as you turn it on – no waiting for it to “warm up”.

HEATER FEATURES

- *Slim, compact size fits most locations*
- *Linear heat direction warms up to 122 sq. ft.*
- *Expandable and collapsible for easy transport*
- *Premium halogen lamp technology*
- *Parabolic reflector for optimal heat output*

ELECTRIC HEATERS

Part Number	HAN1001HA-BLK
PERFORMANCE	
Heat Range	122 Sq. Ft.
Number of Heat Settings	1
Heat Output (BTU)	5118
Programmable Timer	No
Remote Control	No
Construction	Aluminum housing with 304 stainless steel mesh
Warranty	1 year limited
ELECTRICAL RATINGS	
Voltage / Frequency	120 V / 50-60 Hz
Wattage	1500 W
Rating	IP65
Cord Length	6.25 Ft.
Plug Type	Type B 15-Amp
