

HANOVER®

Hanover Outdoor Furniture

IMPORTANT

If you have any problems with this product (missing or damaged parts, assembly issues, etc.),

PLEASE DO NOT RETURN TO THE RETAILER/STORE

from where you purchased the product.

Please call our Toll-Free Customer Service Hotline at: **1-877-397-5144**

Between 9:00 AM and 5:00 PM Eastern Time, Monday through Friday

Or visit our website at: **www.hanover-products.com**

To expedite any future warranty claims, please retain the Instruction Sheet, Warranty Card and receipt for future use.

For additional on-line support on assembly, troubleshooting and care & maintenance of your outdoor furniture, please visit our website at: **www.hanover-products.com**.

**IMPORTANT!! PLEASE READ ENTIRE INSTRUCTION SHEET BEFORE ASSEMBLY!!
TO EXPEDITE ANY FUTURE WARRANTY CLAIMS, PLEASE KEEP INSTRUCTION SHEET, WARRANTY CARD AND RECEIPT**

Step 1: Remove all protective materials and set parts on a flat, non-abrasive surface. Identify parts packed in carton against the parts list. If you are missing any parts or are unsure how to proceed with assembly, call our Customer Service Center at 1-800-416-3511. **Do not attempt assembly if any parts are missing or damaged.**

Step 2: Place the table top upside down on a flat, non-abrasive surface. Attach the table leg to the table top by using the bolts and washers as shown in the diagram. Guide the bolts through the holes in the table leg, and into the pre-drilled holes in the table top. Hand tighten three to four turns only. **Do not tighten completely.** Some adjustments may be necessary to ensure proper alignment of the table legs. Repeat for the other three legs.

Step3: Attach a leg to the leg connector bracket by carefully guiding the bolts already in place on the table legs (each leg has two bolts) through the holes in the leg connector bracket. Add a washer and a nut to the end of each bolt. Hand tighten three to four turns only. **Do not tighten completely.** Repeat on the other three legs.

Step 4: After making any necessary adjustments to the alignment of the table legs and the leg connector bracket, use the hex bolt driver and hex wrench to tighten all nuts and bolts. **Note:** each bolt and nut must be tightened a few revolutions at a time. In order to apply equal pressure to all bolt joints, we recommend working in a cross corner (X fashion). Repeat until all bolts are tight. **Do not over tighten.** Over tightening may strip bolts. Cover all nuts and bolts with covers.

Step 5: With the help of another person, turn the table in the upright position. Your table is now ready for use. If you have any questions, please call our Customer Service Center at 1-800-416-3511.

IMPORTANT NOTE: Damage to welds or frames resulting from over tightened bolts or improper assembly is not covered under our warranty. Please read all instructions carefully before assembly. If you have any questions regarding your assembly, call our Customer Service Center at 1-800-416-3511.

**IMPORTANT!! PLEASE READ ENTIRE INSTRUCTION SHEET BEFORE ASSEMBLY!!
TO EXPEDITE ANY FUTURE WARRANTY CLAIMS, PLEASE KEEP INSTRUCTION SHEET, WARRANTY CARD AND RECEIPT**

Step 1: Identify all parts packed in the carton against the parts list. Remove all protective materials. Place parts on a non-abrasive surface to avoid scratching. If you are missing any parts or are unsure as how to proceed with the assembly, call our Customer Service Center at 1-800-416-3511. **Do not attempt assembly if any parts are missing or damaged.**

Step 2: Place the swivel base (with rocker assembly) on a flat, solid surface. Make sure the rocker assembly is positioned all the way into the base. It may have shifted or vibrated out during shipment.

Step 3: Important: We recommend 2 people work together to assemble the chair. Note the arrow labels on the "U" bar and the rocker assembly. Also note the horseshoe shape of the rocker plate. Point the open end of the horseshoe away from you. The arrows on the rocker assembly should be pointing towards you. Set the chair frame on the rocker assembly with front of the seat facing you and the arrows on the "U" bar pointing towards you as shown in *Figure 1*. This is very important for a safe, balanced rocking motion. **If chair frame has been properly positioned on the rocker assembly, all arrows on the "U" bar and rocker assembly will be pointing in the same direction.**

Step 4: Critical Step: The "U" metal plates must be installed in the proper location. Read this step and carefully examine. Insert the "U" metal plate, so that the "U" bar and rocker plate are between both sides of the "U" metal plate. Make sure that the holes in the "U" metal plate are completely aligned with the holes in the "U" bar as shown in *Figure 1*. Guide the bolts through the holes on the top side of the "U" metal plate, through the holes in the "U" bar portion of the chair, through the holes in the rocker plate and then, most importantly, through the holes in the bottom side of the "U" metal plate. It is very important that the holes in the bottom portion of the "U" metal plate be placed directly beneath the holes in the rocker plate. Add a spring washer and a nut to each bolt as shown in *Figure 2*. **Hand tighten nuts 3-4 revolutions only.** Repeat the same procedure on the other side.

CAUTION: Failure to place "U" metal plates under the rocker plates and above the "U" bar exactly as shown in diagram will cause the bolt heads and nuts to damage the structure of the rocker plates and the "U" bar. Damage due to over tightening of bolts or improper assembly could cause injury and may void your warranty.

Step 5: Tighten all nuts and bolts with the hex wrenches provided. **Ensure the bolts are FULLY tightened.** Remove arrow labels from "U" bar and rocker assembly. Cover bolts with bolt covers.

Step 6: Your chair should be ready for use. If your chair is not rocking properly, double-check your assembly procedure, especially Step 3. If the chair rocks too far forward to or is difficult to rock backwards, you have probably installed the seat frame backwards on the rocker assembly. If you need further assistance, please call our Customer Service Center at 1-800-416-3511.

IMPORTANT NOTE: Damage to frames or spring plates resulting from not FULLY tightening the bolts, is not covered under warranty. Please read all instructions carefully before assembly. If you have any questions regarding your assembly, call our Customer Service Center at 1-800-416-3511.

NOTE: MAKE SURE ARROWS FROM BOTH THE "U" BAR AND ROCKER ASSEMBLY ARE POINTING IN THE SAME DIRECTION!
