

INSTRUCTION

Includes:

the upper part of the body

the chest support frame with the module

the lower part of the body

1 pole

1 connector

STEP 1

Put the lower part of the body on the clean ground, make sure the shoes are facing forward. Slide the chest frame with the module into the place of the lower part of the body. (See Figure 1)

STEP 2

Attach the hook and loop of the chest frame to the hook and loop of the waist. (See Figure 2)

STEP 3

Place the connector on the pole of the module and insert it into the place. (See Figure 3)

STEP 4

Place the pole on the connector and insert it into the place. (See Figure 4)

STEP 5

Insert the pole into the plastic part inside the upper part of the body. (See Figure 5)

STEP 6

Connect the corresponding wires inside together. (See Figure 6)

FINISH

Finish the assembly by the end of pulling up the pants to cover the frame. (See Figure 7)
