

C0810PM

For Outdoor Use

The C0810PM is an ideal choice to keep indoor rooms and outdoor environments comfortably cool and breezy. This weather resistant evaporative air cooler is made to resist outdoor conditions. Honeywell evaporative coolers do not require power hungry components like compressors. The C0810PM consumes only 220 W* of power. This low power consumption translates into significant savings on energy bills compared to using air conditioners.

For Outdoor Environments

Its powerful motor and wide fan blades help to deliver strong air flow. A continuous water supply connection, 19 Gal** water tank, and built-in overflow protection system allow longer periods of operation, making it suitable for more demanding applications.

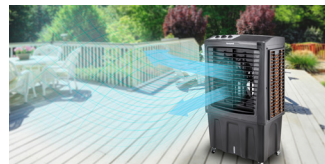

Product Dimensions (in): 27.7 (W) x 18.4 (D) x 46.2 (H)
Net Weight: 44.8 lbs / 20 kg

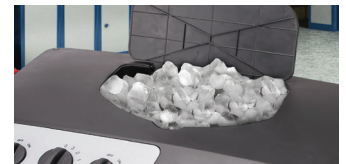

Mechanical Knob Control

Long Electrical Cord and Storage

Fast and Wide Fan Blades
Ideal for Large Spaces

Top Loading Ice Compartment
for Faster Cooling

FEATURES & BENEFITS

Low Power Consumption
220 W*

Water Capacity
19 Gal (72 L)**

Cools Up To 850 sq.ft*
Air Throw Up To 36 ft*

Powerful Air Flow
1413 to 2100 CFM*

3 Speeds
Low / Medium / High

Weather-Resistant
For Outdoor Use

Reduce Temperature
by Water Evaporation

Continuous Water
Supply Connection

3 Sided Honeycomb
Cooling Media

Oscillating Louvers
