

CS071AE

For Indoor Use

The CS071AE is ideal for spot cooling in any home or office. Honeywell evaporative coolers do not require power hungry components like compressors. The CS071AE consumes only 50 watts* of power. This low power consumption translates into significant savings on energy compared to air conditioners. Three fan speeds and oscillating louvers improve air circulation and provide an even distribution of cleaner, cooler air for rooms up to 100 square feet*. It comes packed with a honeycomb cooling media for optimum cooling, digital control panel for ease of use and full function remote control that lets you operate your cooler from across the room. The 1.85 Gallon** water tank is easy to refill with the help of an easy-access water fill door and a timer lets you program it for auto off when needed.

LED Control Panel & Remote Control

* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.
 ** Water Capacity is the total volume of water that can be contained within the air cooler water tank and water distribution system.

Product Dimensions (in)	14.9 (W) 9.8 (D) 25.4 (H)
Net Weight	12.3 lbs / 5.6 kg
UPC Barcode	848987000572
EAN Barcode	4895007930148
Container Qty 40' HQ	830 pcs

FEATURES & BENEFITS

Low Power Consumption
50 Watts*

Water Capacity
1.85 Gallons (7 Liters)**

3 Speeds:
High / Medium / Low

Auto Off Timer

Wheels For Easy Mobility

Cools Up To
100 Sq.ft (9 Sq. m)*

Powerful Air Flow
176 CFM (300 m³/hr)*

Remote Control

Honeycomb
Cooling Media and
Carbon-Dust Filter

Oscillating Louvers
