# **HJOHESWK7**

# **CONTEMPO SERIES PORTABLE AC WITH HEAT PUMP**

**CAPACITY COOLING:** 

10,000 BTU (ASHRAE) | 7,100 BTU1 (SACC)

HEATING: 9,000 BTU (ASHRAE) For room up to 400 - 450 Sq. Ft.

Enjoy Peace of mind and more peaceful sleep with the Contempo Series Portable Air Conditioners. One of the quietest Portable Air Conditioners in its class, the Contempo series creates 54 dbA (depending on the BTU and fan speed). That's about the sound level of an average conversation between two people in a quiet room.

### **COOL IN SUMMER, WARM IN WINTER**

4-in-1 All-season appliance, this Portable AC with Heat Pump, Fan & Dehumidifier cools or heats a room up to 400-450 Sq. Ft. Automatic vertical wind motion helps distribute powerful cool/warm air evenly for fast & consistent cooling/heating.

Product Dimensions (in): 18.9 (W) 15.4 (D) 30.7(H) Net Weight: Cooling: 60.16lbs / Heating:64.57lbs

# COOL IN SUMMER WARM IN WINTER 4-in-1 All-Season Appliance, Cooling, Heating, Dehumidification and Fan

## **MORE FEATURES**

#### **SELF-EVAPORATE**

Improve cooling efficiency and save energy

# QUICK AND EASY INSTALLATION

Full Set Window Kit Included

# ENERGY EFFICENT PORTABLE COOLING

Cool Only the Room You Need

#### STAY DRY, DEHUMIDIFY

65 pints/day\*

#### **QUIET OPERATION**

52 dBA (Max)

## ADJUSTABLE TEMPERATURE

61°F to 88°F

#### SET IT & FORGET IT

24 Hour Energy Saving Timer

#### **ECO-FRIENDLY REFRIGERANT**

Non-Ozone Depleting Refrigerant

This product is manufactured by JMATEK Limited.

In October 2017, the Department of Energy implemented a new test procedure which takes different factors into account and generates a lower BTU rating of portable air conditioners to indicate capacity. However, the actual capacity has not changed - the different ce is simply due to the different test procedure. There have been no internal changes to these units, and the functionality remains the same. Please refer to room size guidelines to find the portable air conditioner that best meets your needs. Please also refer to the Aham website. The product is tested based on ANSI/ASHRAE Standard 128-2001 and U.S. Department of Energy Standard 10 CFR Pt.430.Subpt.B.App.CC. El.

All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications my vary in different countries and subject to change without prior notice.
