

HJ5CESWK0

CONTEMPO SERIES PORTABLE AC

CAPACITY COOLING:

15,000 BTU (ASHRAE) | 10,800 BTU¹ (SACC)

For room up to 585 - 775 Sq. Ft.

Enjoy Peace of mind and more peaceful sleep with the Contempo Series Portable Air Conditioners. One of the quietest Portable Air Conditioners in its class, the Contempo series creates 55 dbA (depending on the BTU and fan speed). That's about the sound level of an average conversation between two people in a quiet room.

STAY COOL. STAY DRY.

Enjoy year round comfort with this versatile appliance offering 3-in-1 functions. The AC provides powerful cooling in the summer, needed dehumidification during humid seasons and the Fan circulates air for everyday comfort.

Product Dimensions (in): 18.9 (W) 15.4 (D) 30.7(H)
Net Weight: 71.50lbs

ENERGY SAVING SLEEP MODE

Sleep Mode reduces the temperature gradually near the end of the cycle

CONVENIENT DIGITAL CONTROL

LED display with remote control

WASHABLE DUAL FILTRATION SYSTEM

Helps filter unwanted dust, protects & extends the life of the AC

MORE FEATURES

SELF-EVAPORATE

Improve cooling efficiency and save energy

STAY DRY, DEHUMIDIFY

100 pints/day*

ADJUSTABLE TEMPERATURE

61°F to 88°F

QUICK AND EASY INSTALLATION

Full Set Window Kit Included

QUIET OPERATION

55 dbA (Max)

SET IT & FORGET IT

24 Hour Energy Saving Timer

ENERGY EFFICIENT PORTABLE COOLING

Cool Only the Room You Need

CONTINUOUS DRAIN SYSTEM

With drain tube included (Dehumidifier mode only)

ECO-FRIENDLY REFRIGERANT

Non-Ozone Depleting Refrigerant (R32)

¹ In October 2017, the Department of Energy implemented a new test procedure which takes different factors into account and generates a lower BTU rating of portable air conditioners to indicate capacity. However, the actual capacity has not changed - the difference is simply due to the different test procedure. There have been no internal changes to these units, and the functionality remains the same. Please refer to room size guidelines to find the portable air conditioner that best meets your needs. Please also refer to the Aham website.

The product is tested based on ANSI/ASHRAE Standard 128-2001 and U.S. Department of Energy Standard 10 CFR Pt.430.Subpt.B.App.CC. EL

* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.
