## CLASSIC PORTABLE AC WITH HEAT PUMP

CAPACITY COOLING:

14,000 BTU (ASHRAE) | 9,000 BTU<sup>1</sup> (SACC)

HEATING: 11,000 BTU (ASHRAE)

For room up to 700 Sq. Ft.

Save energy cooling only the room you need. Honeywell Portable Air Conditioners are the reliable choice for fast and efficient cooling. Easy to set up and easy to use, they work to cool individual rooms to help save energy from whole-house air conditioning.

### COOL IN SUMMER, WARM IN WINTER

4-in-1 All-season appliance, this Portable AC with Heat Pump, Fan & Dehumidifier cools or heats a room up to 700 Sq. Ft. Automatic vertical wind motion helps distribute powerful cool/warm air evenly for fast & consistent cooling/heating.

Product Dimensions (in): 18.1 (W)X15.2 (D)X29.4 (H)  
Net Weight: 70.5 lbs

#### COOL IN SUMMER, WARM IN WINTER

4-in-1 All-Season Appliance, Cooling, Heating, Dehumidification and Fan

#### QUICK AND EASY INSTALLATION

Full set window kit included

#### EASY MOBILITY

Roll from room to room with ease

## MORE FEATURES

#### AUTO-EVAPORATION

No Bucket to Drain  
(Except in high humidity conditions)

#### QUIET OPERATION

54 dBA (Max)

#### ADJUSTABLE TEMPERATURE

61°F to 90°F

#### ENERGY EFFICIENT PORTABLE COOLING

Cool Only the Room You Need

#### WASHABLE DUST FILTER

Clean Easily Under a Faucet

#### SET IT & FORGET IT

24 Hour Energy Saving Timer

#### STAY DRY, DEHUMIDIFY

108 pints/day\*

#### CONVENIENT DIGITAL CONTROL

Feather Touch Control Panel & Full Function Remote Control

#### ECO-FRIENDLY REFRIGERANT

Non-Ozone Depleting Refrigerant (R32)

<sup>1</sup> In October 2017, the Department of Energy implemented a new test procedure which takes different factors into account and generates a lower BTU rating of portable air conditioners to indicate capacity. However, the actual capacity has not changed - the difference is simply due to the different test procedure. There have been no internal changes to these units, and the functionality remains the same. Please refer to room size guidelines to find the portable air conditioner that best meets your needs. Please also refer to the Aham website.

The product is tested based on ANSI/ASHRAE Standard 128-2001 and U.S. Department of Energy Standard 10 CFR Pt.430.Subpt.B.App.CC. EL

\* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.
