

TC30PEU

For Indoor Use

An indoor room cooler, this portable, energy-efficient model is built to cool your small to medium rooms. Living room, bedroom, play area or office—the unit is lightweight and adapts for summer heat or winter dryness.

A versatile performer, the TC30PEU sports oscillating louvers, three fan speeds and a continuous water supply outlet for longer unattended operation. The washable dust filter and easy-access honeycomb cooling media make for easy upkeep, while the remote control lets you control the unit from across the room.

This tower design with oscillating louvers allows for the airflow to be distributed evenly and at body level, while the slim design makes it convenient to fit comfortably into even more compact spaces.

Product Dimensions (in): 13.9 (W) 13.9 (D) 43.5 (H)
Net Weight: 19.6 lbs / 8.9 kg

Simple Digital Controls

Remote Control with Convenient Holder
