

TC50PEU

For Indoor/ Semi-Outdoor[#] Use

An indoor or semi-outdoor room cooler, this powerful model is built to cool large spaces up to 342 Sq.ft. Ideal for living rooms, common areas, garage or semi-outdoor areas such as patios or open-sided tents (covered by a roof or canopy), this evaporative cooler is equipped with a large water tank and continuous water supply option for longer, more demanding applications.

A versatile performer, the TC50PEU sports oscillating louvers, three fan speeds and a washable dust filter with easy-access honeycomb cooling media for easy maintenance, while the remote lets you control the unit from across the room.

This tower design with oscillating louvers allows for the airflow to be distributed evenly, covering more area from a higher distance, while the slim design makes it convenient to fit comfortably into even more compact spaces.

Product Dimensions (in): 15.9 (W) 15.9 (D) 53.6 (H)
Net Weight: 23.3 lbs / 10.6 kg

Simple Digital Controls

Remote Control with Convenient Holder

Easy-Fill Water Tank

Continuous Water Supply Connection

FEATURES & BENEFITS

Low Power Consumption
145 W*

Water Capacity
12.5 G (47.5 L)**

Cools Up To
342 Sq.ft (32 Sq.m)

Powerful Air Flow
588 CFM (1000 m³/hr)*

3 Speeds
Low / Medium / High

Low Water Alarm

Wheels for Easy Mobility

Slim Design

Honeycomb
Cooling Media and
Washable Dust Filter

Oscillating Louvers
