# WBD-0500

Workspace Booking Dock

Offer exceptional value in hybrid work environments with desk hoteling setups

USB-C Dock & Touch Display

5" touch display combined with a USB-C dock for streamlined connectivity

One-Wire Connection

Connect your BYOD laptop with a single USB-C wire for seamless, integrated use

100W Ultra-Fast Charger

Power up quickly with a 100W USB power delivery, ensuring your laptop charges rapidly

BYOM (Bring Your Own Meeting)

Quickly connect into huddle space or workstation to start work and collaboration

Open Platform for Software Integration

Enables seamless integration of diverse software applications for flexible customization
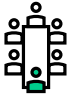

MST Multi-Display Support

Connect multiple displays via a single port for enhanced productivity

10Gbps SuperSpeed+ USB Ports

Provides fast data transfer for high-speed peripheral performance

BOOK SMARTER, ENHANCED COLLABORATION:
Experience the Power of Booking Dock

Effortless " Bring Your Own Meeting" (BYOM) Connectivity for Huddle Spaces

In huddle spaces or designated 'phone booth' stations within the office, this innovative device facilitates a seamless "Bring Your Own Meeting" (BYOM) experience. It empowers users to effortlessly connect their laptops to conference room equipment, enhancing collaboration and productivity

USB-C Connection

The WBD-0500 is not just suitable for huddle spaces, but also for workstations. Whether you need to connect into a huddle space for a quick meeting or settle into a workstation for focused work, the WBD-0500 provides the connectivity you need with a single USB-C wire.

Versatile Connectivity: WBD-0500 Ensures Secure Cable Management

Connect everything you need with ease: the WBD-0500 offers versatile connectivity options with a variety of ports. Ensure peace of mind by securely locking cables, eliminating concerns about equipment becoming unplugged or going missing. Whether it's monitors, wired network connections, keyboards, mice, or storage devices, all your port needs are covered.

WBD-0500 is compatible with Microsoft Outlook, Teams, and Zoom, streamlining booking and scheduling processes. Employees can easily check the status of any desk —whether it's available, occupied, or in transition— via the clear indication displayed on the 5" screen of the Status light.
