KEVERI[®]

ENJOY EVEN MORE COMFORT USING YOUR KEVERI H1

If you are already enjoying your Keveri H1, further enhance your experience with The H1 Rooftop. It is your perfect ally. Use it to place on top dishes, accessories, cutting boards, and platters, both hot and cold.

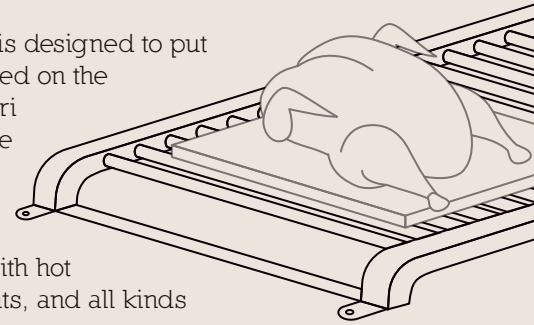

HOW TO INSTALL IT?

- 1• Unscrew the 4 bolts located on the roof of your Keveri H1
- 2• Locate The H1 Rooftop being aware that the holes match those of the Keveri H1.
- 3• Screw the bolts in each of the 4 holes securing The H1 Rooftop on your Keveri H1.
- 4• Ready to go! Now you can enjoy a better experience.

RECOMMENDATIONS FOR USE

The H1 Rooftop is designed to put anything you need on the top of your Keveri H1 and thus have an additional space to cook comfortably. You can use it with hot and cold elements, and all kinds of materials.

#ProTip: To generate more stability and prevent sliding of cutting boards, we recommend placing a dish cloth between The H1 Rooftop and the board, so it won't slide easily.

CARE AND CLEANING

Care: The H1 Rooftop is not designed to hold meats or food directly. It is suggested to place a board or dish on the rack and then the food on top.

Cleaning: The H1 Rooftop is made entirely of stainless steel, so it can withstand dishwashers and dish soap, but we recommend using just a damp cloth and that will be enough to leave it looking like new.
