

Rethinking Air Technology.

Warm AW300

BLADELESS HEATER

Exclusive Heat Channels™ for long range heat projection

Enhanced safety features for an active home environment

EZtouch™ Controls for added convenience

with Remote Control (Batteries Included)

Warm AW300

Air Logic™ Warm brings you the newest thinking and technology in home comfort to keep you and your room heated. Our innovations mean you and your family get the smart, safe, and most effective way to warm the air around you.

Enhanced Safety Features

Warm is safe for active home environments by offering a heater with no visible element, a safe touch surface, automatic shut off features, and a tip over safety switch.

Heat Channels™

Specially designed channels blend air with heat to deliver quick, uniform, and long range heat projection.

Modern Design

27" tall means maximum heat distribution with a sleek look and small footprint.

Efficient and Quiet

Patent pending blower technology creates powerful ceramic heat with low noise output.

EZtouch™ Controls

Digital simple touch controls offer 2 heat settings, 8 hour timer, widespread oscillation, and automatic thermostat.

Easy to clean

The permanent rear filter with EZclick™ System helps to keep the heater free of debris while the Heat Channels™ can easily be wiped clean.
