## Digital Ceramic Heater with Warm Air Motion Technology CD13700

Using Warm Air Motion Technology, this remarkable unit generates 1500 watts of soothing heat through its fan-powered air delivery system. Electronic touch controls, 2 quiet settings, 8 hour auto-off timer and adjustable louvers to direct targeted heat make this a practical necessity. Not only is this heater highly efficient because of its easy-vacuum filter, it is also safe with an automatic overheat protection and exterior that stays cool to the touch.
