

500-Gallon Water Filter for Select LG Refrigerators

LT500PC Refrigerator Accessory
(Genuine LG part # ADQ72910908)

Fresh water simply tastes better!

Keeping your refrigerator in tip top shape with a brand new water filter is a smart move. By changing your LT500PC water filter on a regular basis, you'll continue to reduce contaminants such as iron, particulates and chlorine in your drinking water and ice cubes. Keep cool clean healthy water flowing from your LG refrigerator with a fresh water filter. You'll notice the difference!

- Filters chlorine taste and odor
- Reduces lead, mercury, asbestos and benzene
- Does not remove helpful minerals, such as fluoride
- Designed to last up to 6 months or 500 gallons
- No tools required for installation
