

Configuration:

LS-54-216 Listen iDSP Prime Level II
 Stationary RF System (216 MHz)

Product Overview:

Configured with permanent installations in mind, the LS-54 Stationary RF System comes with everything needed to immediately integrate and offer high-quality assistive listening while meeting compliance requirements.

Beginning with the LT-800-216 Stationary RF Transmitter and LA-122 Universal Antenna Kit, the system allows you to configure and rack mount the antenna ideal for your system and setup.

Four of our advanced LR-4200-216 iDSP Receivers are included as well, along with four universal ear speakers, two intelligent neck loops/lanyards, a four-port USB charger, RCA cable, and a notification signage kit. The result is a complete assistive listening system that provides outstanding audio performance and immediate compliance for your business or venue.

Highlights:

- Complete 216 MHz RF system with transmitter and four iDSP receivers
- LT-800-216 transmitter, universal antenna kit, and rack mount kit include everything needed for permanent installation and custom configuration
- Includes four universal ear speakers and two integrated neck loops/lanyards
- Four-port USB charger, compliance signage, and RCA cable also included for immediate set up
