

**Product Overview:**

The LA-382 is a convenient solution to use with the LA-381 Intelligent 12-Unit Charging Tray for streamlined dispensing, collecting and care of iDSP headsets, ear speakers and integrated neck loop/lanyards.

The cable management base can be connected to the charging tray or mounted to a flat table top for a fixed installation. The cable management arm can be connected with either the arm facing inward over the charging units or outward behind the charging units to meet the needs of the venue.

**Highlights:**

- Use with charging tray for streamlined dispensing, collecting and care of iDSP headsets, ear speakers and integrated neck loop/lanyards
- Flexible mounting options helps keep cables organized and tangle free

**Includes:**

One (1) Intelligent Cable Management Unit  
Includes: Base, Arm and Mounting Hardware
