Voltage Protection
MIDDLE ATLANTIC

NEXSYS is built on a promise that we've kept for over two decades – more than half the life of the company – that our products are designed, engineered, and built for AV.

NEXSYS combines power distribution and power backup into a comprehensive and cohesive product platform, united by design – both internal and external.

Why are you plugging your AV equipment into anything else?

Just Choose NEXSYS.

NEXSYS Horizontal Power Distribution

15A – 20A – 120V – 9 Outlets – Remote Contact Control
Surge Protection – Voltage Protection

1 Illuminated Power Button and Light Well

Visual indication that the unit is powered up. (Don't worry, it's really not this bright.)

2 Illuminated Front Panel Indicators and Buttons

Surge Protection Status Indicator

Selectable On/Off Voltage Protection Button

Selectable On/Off Remote Contact Control Button

3 Front Convenience Outlet

Superior Surge Protection on ALL models

Patented Series Protection Models (shown)

Improved Multi-Stage MOV Models

4 Series Protection

The fastest, most reliable, non-sacrificial surge protection on the market. That's why it's patented.

1 IEC Inlet

We provide a 9′ SignalSAFE™ power cable but use whatever length you want for perfect cable management.

2 8 Rear Outlets

Outlets are rotated to eliminate wall-wart blockage.

3 Status Port

The “Status” Dry Contact Port provides power status for the unit on Series Protection models, and surge status – when compromised – on MOV models.

4 Remote Port

The “Remote” Dry Contact Port enables remote control (on/off) via a control system.

BONUS FEATURE

Connect the “Status” Port of a Series Protection model to the “Remote” Port of another NEXSYS PDU to turn that unit on or off.

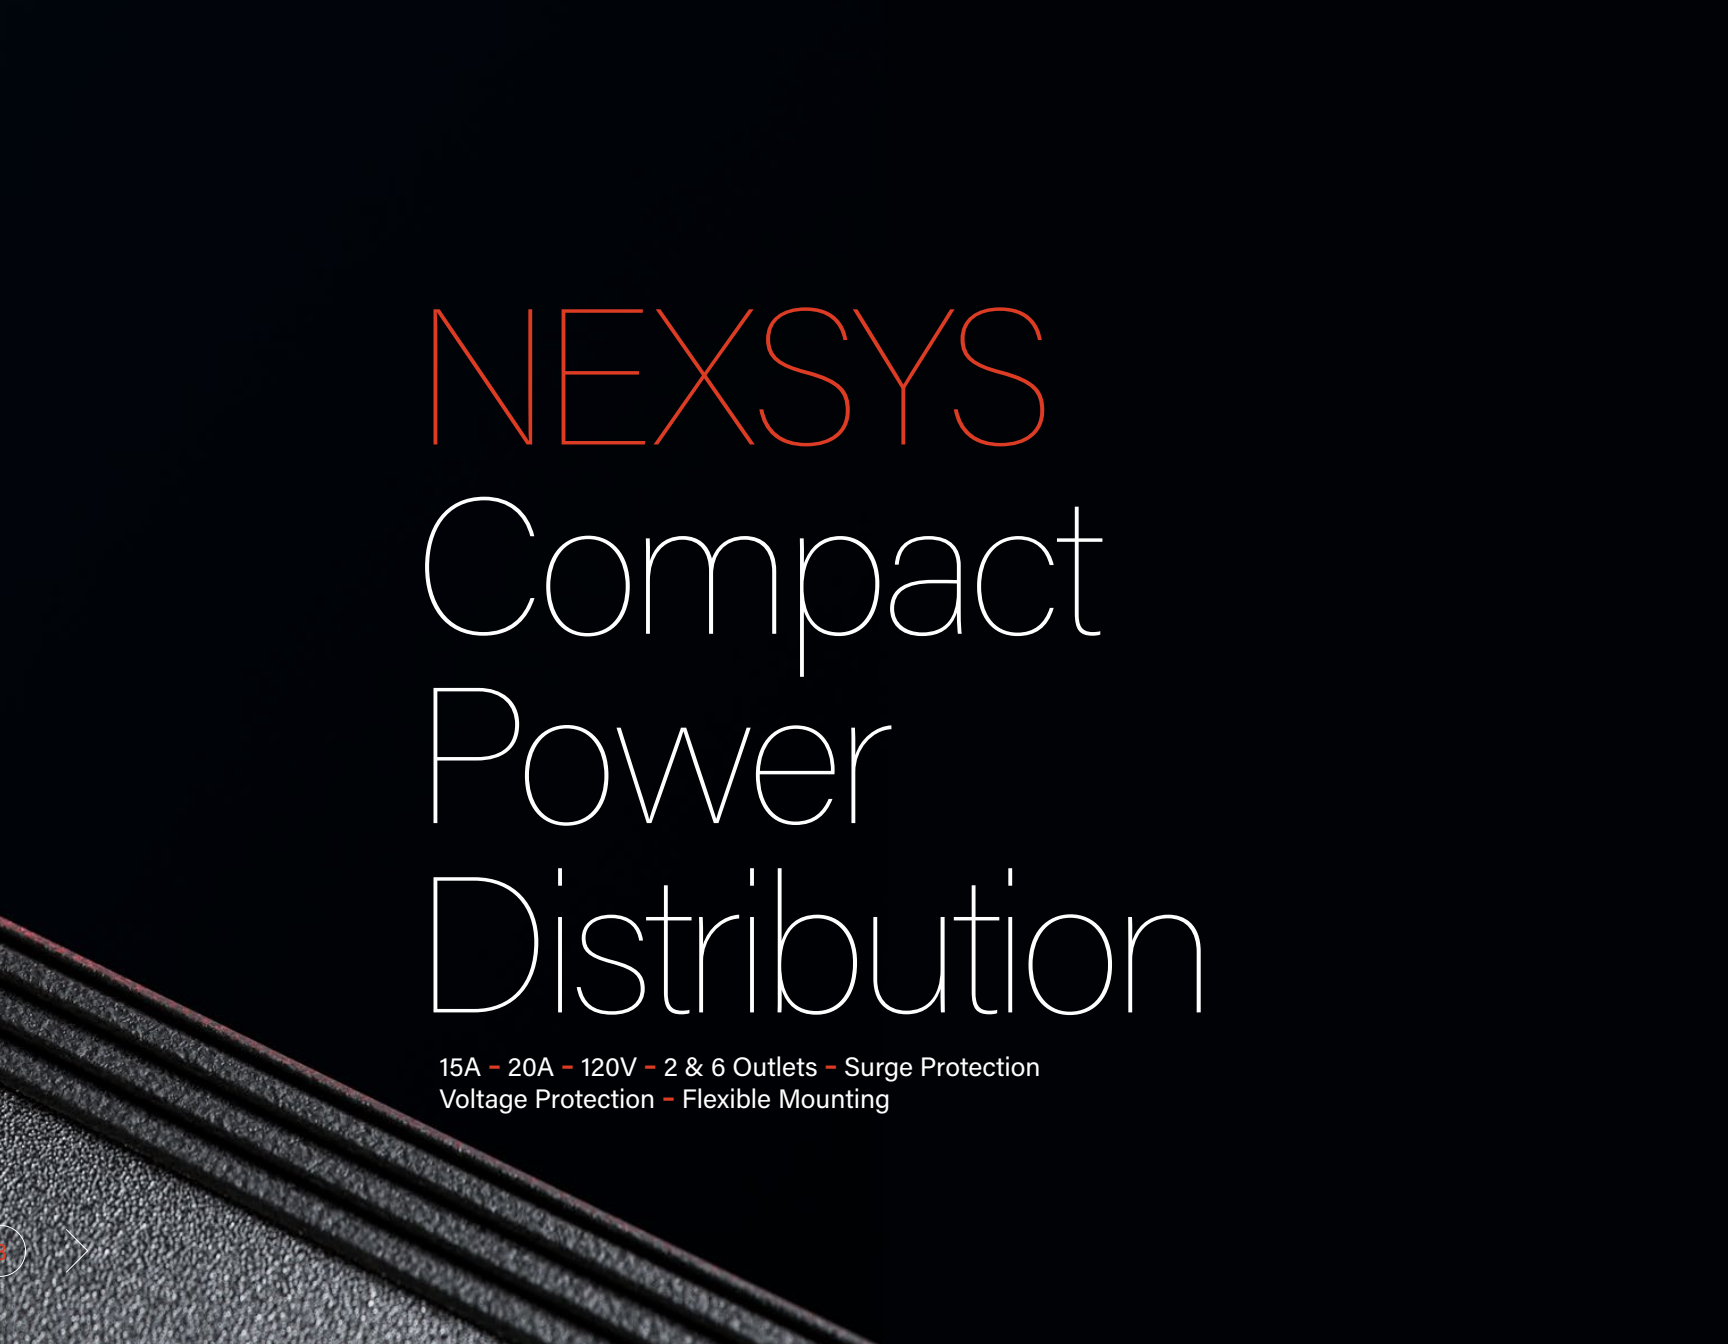
NEXSYS

Compact Power Distribution

15A – 20A – 120V – 2 & 6 Outlets – Surge Protection
Voltage Protection – Flexible Mounting



1 Surge and Voltage Protection Indicator Lights

See if the unit is protected no matter where it's mounted – behind-the-display or in hard-to-reach areas - with the easy to see LED lights that wrap the corner of the unit.

2 IEC Inlet

We provide a 2' IEC power cable but use whatever length you want for perfect cable management.

3 Status Port

The “Status” Dry Contact Port provides power status for the unit on Series Protection models, and surge status – when compromised – on MOV models.

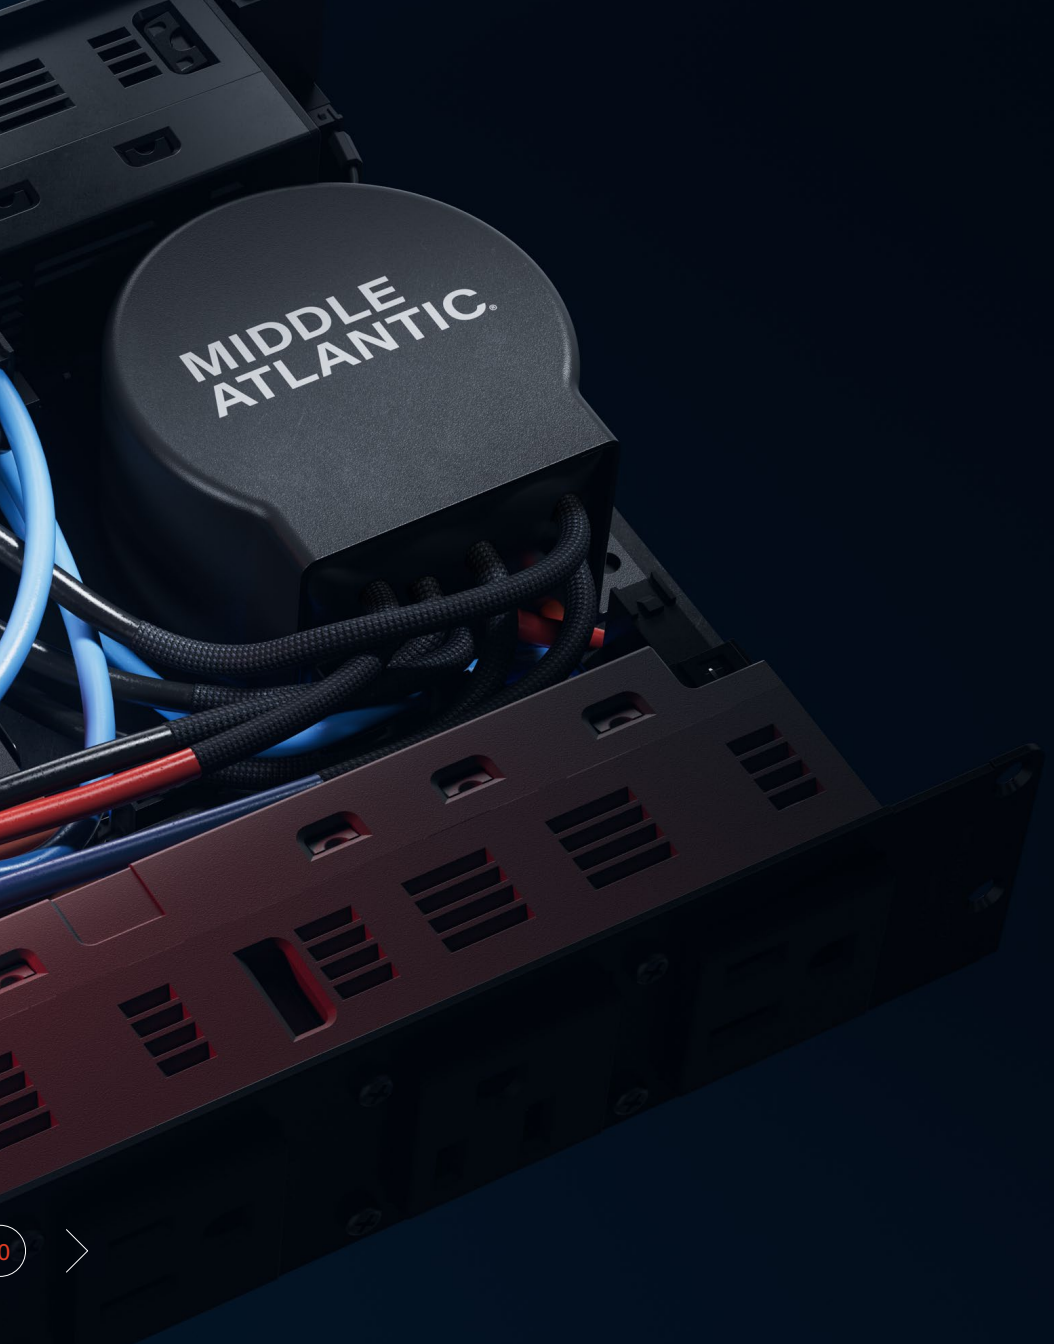
4 Voltage Selection Port

Enable or disable the Voltage Protection feature from this port.

- To disable, simply “short” the pins

1 Series Protection

The fastest, most reliable, non-sacrificial surge protection on the market. That's why it's patented.



Superior Surge Protection on **ALL** Models

- Patented Series Protection Models (shown)
- Improved Multi-Stage MOV Models

1 C-Clamp Mounting Bracket

The fastest way to mount the NEXSYS Compact PDU without hardware. Attach the clamp to a wall or Lever Lock™ plate and clip on the PDU for tool-free mounting inside a rack, kiosk, in-wall box, and more.

BOTH BRACKETS INCLUDED WITH ALL COMPACT PDUS

2 L Mounting Bracket

Secure the L-Brackets with hardware to the unit and mount anywhere you want, including Lever Lock™!

1 Rotated Outlets

Outlets are rotated to eliminate wall wart blockage. You pay for the outlets; you should be able to use them!
