Midea Convertible Upright Freezers are perfect for storing food purchased in bulk, saving you trips to the grocery store while freeing up space in your kitchen fridge/freezer. With versatile, 2-in-1 convenience, you can convert the freezer to a refrigerator and back again with a single touch on the interior electronic control panel. An automatic defrost feature keeps the unit and your food frost-free. High-quality insulation and sealing technology make it perfect for the garage, basement or other non-climate controlled storage areas.

Converts to a Refrigerator

The perfect food/beverage storage option with 2-in-1 freezer or refrigerator convenience. Simply convert the unit to a fridge or freezer via the LCD panel to match your seasonal food/beverage storage needs.

Garage Ready

Freezer will function normally in extreme high and low temperatures, so your food stays frozen.

Frost-free Convenience

An auto-defrost feature keeps the freezer in peak operating condition without the hassle of manually defrosting.
