

WiFi & Bluetooth Module for Mimo Display with BrightSign Built-In

MBS-WIFI1-OPT

Our combined WiFi/Bluetooth module is for use with the MBS line of Mimo displays with BrightSign Built-In. This module enables the display with BrightSign Built-In to network using WiFi and operate BrightBeacon via Bluetooth.

Implements WiFi and Bluetooth functions as an embedded module installed inside all BrightSign Series 4 players. It has an M.2 interface connection, supports 802.11a/b/g/n/ac protocols and has a single antenna.
