

Model: MCT-215HPQ

Please keep this manual for future reference. TABLE OF CONTENTS

PAGE

Declaration

- Please read the instructions carefully before equipment installation and using the device.
- ✓ Do not put the product in high temperature, humid or dusty environment.
- ✓ Do not drop, crash or break down this product.
- Do not power off the device when it's formatting or upgrading, otherwise it will cause operation system error.
- ✓ This product is not waterproof.
- ✓ Use only approved add-on enhancements.

- 1. Camera (optional): 2M or 5M pixels camera
- 2. SD Card Slot / Cover: support external SD card
- 3. Micro-USB Port: support Micro-USB 2.0
- 4. VESA Mount Holes: for installing the bracket
- 5. Speakers: audio output
- 6. Function Keys (Vol+ / Vol- / Up / Down / Exit)

7. AC/DC In Jack: powered by 12V/3A AC/DC input

8. IR Receiver & LED Indicator

IR Receiver: support remote control

LED Indicator:

Power supply ON	Red then turn Green after kernel boot up.
Power supply OFF	LED light off.

- 9. USB Port x 2: support USB 2.0 Host type A
- 10. RS232 Port x 2: in RJ45 connector form
- **11. S/PDIF Port:** support S/PDIF audio output
- 12. Headset + Microphone Jack
- 13. 10/100Mbps RJ45 Ethernet Port: support Ethernet connection
- 14. Power Switch: switch power ON/OFF
- 15. WiFi Receiver

Power on the Product

Step 1 Plug the power source into the AC/DC in jack (**#8** in **Product Instruction**).

Step 2 Switch the power switch (#15) on the bottom of this product to ON.

Insert SD Card

This product supports external SD card. Please insert your SD card into the SD Card Slot (**#2** in **Product Instruction**) on the top of this product.

Insert USB Devices

This product supports USB and Micro-USB to deal with your files.

USB

Plug your USB memory into the USB port (**#10** in **Product Instruction**) on the bottom of this product, and then you can do the file operations via the File Browser. (See in **Browse Files**).

Micro-USB

Connect the Micro-USB port (**#4** in **Product Instruction**) on the bottom of this product and the USB port on your computer with a Micro-USB-to-USB cable.

Click the "**Turn on USB storage**" button in the "**USB mass storage**" window that pops up automatically to make the device memory visible in your computer.

Home Screen

In the home screen, you can long-press the blank space to change the wallpaper or drag widgets to desktop.

Change Wallpaper:

1. Click "WALLPAPER".

2. Select one picture from system presets or your own pictures.

3. Click "Set wallpaper" on the upper-left corner of the screen to apply the wallpaper.

Add Widgets:

1. Click "WIDGETS".

2. Long-press a widget and drag it to desktop.

¥ III		8:39
	(i) App info	
7		
	FRI, OCTUBER 05	
	🔅 💁 😳 💽	

3. A dialog prompts you to allow adding a widget for the first time. Check the checkbox and then click "Create".

4. If you want to remove an icon, long-press the widget and drag it onto "×Remove" at the top of the screen and drop it until it turns red.

System Bar

Navigation Buttons

- **1. Volume-:** Decrease the system volume.
- 2. Back: Return to the previous page.
- **3. Home:** Return to the home screen.
- 4. Recents: Switch between recently used apps.

To remove an app from the list, you could long-press the icon to select "Remove from list".

Or swipe the app item up or down to remove it.

5. Volume+: Increase the system volume.

Status Notifications

Status bar at top of the screen displays system status, such as time, Wi-Fi, SD card and USB connection etc.

Pull down the upper-left corner to open the status window.

Pull down the upper-right corner to open the shortcuts window which contains brightness adjustment, Wi-Fi, auto rotate, airplane mode and

location switch, and system settings entrance.

÷ 🔳
